PROXY SETTINGS

The screenshot shows a software window titled "2004 W-2 & Informative Returns Program". On the left is a sidebar with three menu items: "CopyRight", "Utilities", and "Languages". The main area contains the following sections:

- Select Data Path:** A text box with "C:\DH\INFORMATIVAS\Data\2004" and a "Search" button.
- Proxy Settings:**
  - A checked checkbox labeled "Select to activate yur proxy settings."
  - Fields for "Server:" (10.1.2.3:8080), "User Name:" (MyUser), "Domain:" (MyDomain), and "Password:" (represented by dots).
  - A "Save" button.
- Calculator:** A section with an "Open Calculator" button.

At the bottom of the window are three large yellow buttons: "Create", "Open", and "Exit".

To configure the Proxy Server options, check the box *"Select to activate your proxy settings"* and enter the following required information:

1. Server – **IP Address** of the proxy server together with the **Port Number**. You must follow this format: [IP Address]:[Port Number]
2. Domain
3. User Name
4. Password – For security purposes the password is stored encrypted.

After completing the required information, you must click **Save** to store the same. Then, you can continue working with the Program.
