INDEPENDENT AUDITORS' REPORT

To the Administrator of the
Agricultural Enterprises Development Administration
of the Commonwealth of Puerto Rico

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the remaining fund information of the Agricultural Enterprises Development Administration ("AEDA"), a component unit of the Commonwealth of Puerto Rico, as of and for the year ended June 30, 2023, and the related notes to the basic financial statements, which collectively comprise AEDA's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of AEDA as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of AEDA, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the AEDA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the AEDA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about AEDA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 16, the Schedule of AEDA's Proportionate Share of the Total Pension Liability and Related Ratios on page 69, and the Schedule

of the AEDA's Proportionate Share of the Total OPEB Liability on page 70 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following is a discussion and analysis of the Agricultural Enterprises Development Administration's ("AEDA") financial performance, including an overview and analysis of the financial activities of AEDA for the fiscal year ended June 30, 2023. Readers should consider this information in conjunction with AEDA's financial statements, including the notes to the financial statements, which follow them.

FINANCIAL HIGHLIGHTS

Government-wide Highlights

The government-wide financial statements report information about AEDA as a whole, using the economic resources measurement focus and accrual basis of accounting:

- Net Position of AEDA Governmental Activities, on a government-wide basis, was a net deficit at the close of the fiscal year 2023 of \$29.9 million and a deficit at the close of the fiscal year 2022 of \$35.4 million.
- Net Position of AEDA Business-Type Activities, on a government-wide basis, presented a deficit at the close of the fiscal year 2023 of \$77.2 million and a deficit at the close of the fiscal year 2022 of \$80.1 million.
- Net Position of AEDA, on a government-wide basis, was a deficit at the close of the fiscal year 2023 of \$107.2 million and at the close of the fiscal year 2022 of \$115.5 million. This represents a decrease in deficit of \$8.3 million.
- Total Revenues of AEDA Governmental Activities, on a government-wide basis, increased by \$43.5 million (318%) and expenses decreased \$27.6 million (33%) in comparison with the year 2022.
- Total Revenues of AEDA Business-Type Activities, on a government-wide basis, increased by \$20.5 million (34%) and expenses increased \$11.8 million (19%) in comparison with the year 2022.

Fund Highlights

The fund financial statements provide detailed information about AEDA's most significant funds, using the current financial resources measurement focus and modified accrual basis of accounting:

- At the close of the current fiscal year, AEDA's governmental funds reported combined ending fund balances of \$26.7 million, an increase of \$712 thousand, in comparison with the prior year.
- The General Fund reported revenues over expenditures of \$987 thousand, an increase to total fund balance of \$26.2 million.
- Enterprise funds reported a combined fund deficit of \$77.2 million, a decrease of \$2.9 million in comparison with the prior year.
- The business-type activities of AEDA include Agricultural Services.

General Financial Highlights

- The investment in capital assets from governmental activities as of June 30, 2023, was \$4.9 million net of accumulated depreciation of \$16 million, and \$14 million net of accumulated depreciation of \$25.6 million from business-type activities.
- Long-term debt notes payable and lines of credit were \$843,282, which remained the same with respect to 2022 in governmental activities.
- Other noncurrent liabilities decreased by \$7.4 million from governmental activities and decreased \$11.9 million from business-type activities.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to AEDA's basic financial statements, which include three components: (i) Government-Wide Financial Statements; (ii) Fund Financial Statements; and (iii) Notes to the Basic Financial Statements. The focus is on both AEDA as a whole (i.e., governmental-wide) and the major individual funds. The dual perspectives allow the reader to address relevant questions, broaden a basis for comparison (year-to-year or government-to-government), and enhance AEDA's accountability.

Basic Financial Statements

AEDA's basic financial statements consist of two kinds of statements, each with a different view of AEDA's finances. The Government-Wide Financial Statements provide both long-term and short-term information about AEDA's overall financial status. The Fund Financial Statements focus on major aspects of AEDA's operations, reporting the operations in more detail than the government-wide statements. The following table summarizes the major features of the financial statements. The overview section below also describes the structure and contents of each of the statements in more detail.

	GOVERNMENT-WIDE STATEMENTS	FUND FINANCIAL STATEMENTS	
		GOVERNMENTAL	ENTERPRISE
SCOPE	Entire entity	The day-to-day operating activities of AEDA for basic governmental services	The day-to-day operating activities of AEDA for business-type enterprises
ACCOUNTING BASIS AND MEASUREMENT FOCUS	Accrual accounting economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
TYPE OF ASSET, LIABILITY, AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES INFORMATION	All assets and liabilities, both financial and capital, short-term and long-term, all deferred outflows and deferred inflows of resources	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included. All deferred outflows and deferred inflows of resources	All assets and liabilities, both financial and capital, and short-term and long-term. All deferred outflows and deferred inflows of resources
TYPE OF INFLOW AND OUTFLOW INFORMATION	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the year; expenditures when goods or services have been received and payments made during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

- ***Government-Wide Financial Statements***

The government-wide statements report information about AEDA as a whole using accounting methods similar to those used by private-sector businesses. They are prepared using the flow of economic resources measurement focus and the accrual basis of accounting.

Statement of Net Position – Presents information on all AEDA's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as net position.

$$\text{Net Position} = (\text{Assets} + \text{Deferred Outflows of Resources}) - (\text{Liabilities} + \text{Deferred Inflows of Resources})$$

Over time, increases or decreases in net position may serve as a useful indicator of whether its financial position is improving or deteriorating. Other non-financial factors may need to be considered to assess the overall financial position of AEDA.

Statement of Activities – The *Statement of Activities* presents information showing how AEDA's net position (deficit) changed during the year. All changes in net position (current year's revenues less expenses) are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected service charges, and earned but unused vacation leave). The *Statement of Activities* is focused on both the gross and net cost of various activities (including governmental and business-type activities). This is intended to summarize and simplify the reader's analysis of the revenues and costs of various state activities and the degree to which activities are subsidized by general revenues.

Both of these government-wide financial statements distinguish functions of AEDA that are principally supported by Commonwealth's contributions (i.e., governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (i.e., business-type activities).

The governmental activities of AEDA include incentives and subsidies for agricultural entrepreneurship development. These activities are primarily financed through Commonwealth's contributions (i.e., governmental activities). The business-type activities of AEDA include the purchase and sale of different kinds of agricultural products, like coffee, and other agricultural services.

- ***Fund Financial Statements***

A fund is a group of related accounts used to maintain control over resources that are segregated for specific activities or objectives. AEDA, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of AEDA can be divided into two categories: governmental funds and enterprise funds. The fund financial statements provide more detailed information about AEDA's most significant funds. Funds are accounting devices that AEDA uses to keep track of specific sources of funding and spending. Some funds are required by Federal and Government regulations.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in government-wide statements. However, unlike the government-wide statements, the governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating AEDA's near-term financing requirements.

As required by GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balances for the governmental funds are reported in classifications that comprise a hierarchy based on the extent to which the government honors constraints on the specific purposes for which amounts in those funds can be spent.

An unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of the current fiscal year, AEDA's governmental funds reported combined ending fund balances of \$26.7 million. Of this amount, there is a surplus in the General Fund of \$26.2 million; therefore, there is available balance for spending at the government's discretion (i.e., unassigned fund balance). The remainder fund balance is classified as nonspendable, restricted, committed, or assigned to indicate that is not available for new spending because it has already been committed.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

AEDA maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for two major funds and an aggregate total for all non-major funds. AEDA's major governmental funds are the General Fund and Incentives Fund.

The General Fund is the chief operating fund of AEDA. At the end of the current fiscal year, the Unassigned General Fund surplus balance was \$25.9 million.

Enterprise Funds – AEDA maintains only one type of enterprise fund. *Enterprise funds* are used to report the same functions presented as business-type activities in government-wide financial statements. AEDA uses enterprise funds to account for its Agricultural Services Fund. Enterprise funds financial statements provide the same type of information as the government-wide financial statements, but in greater detail. The enterprise fund financial statements provide separate information for the Agricultural Services Fund, which is the major enterprise fund of AEDA.

- **Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the governmental-wide and fund financial statements.

- **Required Supplementary Information – Total Pension Liability**

The annual financial report includes the Schedule of Proportionate Share of the Total Pension Liability and Related Ratios as the result of the implementation of GASB Statement No. 73.

- **Required Supplementary Information – OPEB Liability**

The annual financial report includes the Schedule of Proportionate Share of Total Other Postemployment Benefits Liability as required by GASB Statement No. 75.

FINANCIAL ANALYSIS OF AEDA AS A WHOLE

Government-Wide Financial Statements Analysis

The following table presents a summary of the Statements of Net Position as of June 30, 2023, and 2022:

Commonwealth of Puerto Rico Agricultural Enterprises Development Administration Statement of Net Position As of June 30,

Analysis of Net Position

Net position (deficit) may serve over time as a useful indicator of a government's financial position. AEDA's liabilities and deferred inflows exceeded its assets and deferred outflows by \$107.2 million at the close of the fiscal year 2023.

A portion of AEDA's net position reflects its investment in capital assets (e.g., land, buildings, infrastructure, motor vehicles, and machinery and equipment) of \$18.9 million (i.e., total capital assets less accumulated depreciation). AEDA uses these assets to provide services to citizens and consequently, these assets are not available for future spending. Unrestricted net position is the part of the net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements.

As of June 30, 2023, AEDA presented an unrestricted deficit of \$126 million. This balance was affected by liabilities of \$233.1 million including \$201.2 million for payroll-related liabilities (e.g., compensated absences, voluntary termination benefits, other post-employment benefits, pensions) and financing liabilities of \$843,282 (e.g., lines of credit, notes payable).

The following table summarizes the changes in net position for the years ended June 30, 2023, and 2022:

Commonwealth of Puerto Rico Agricultural Enterprises Development Administration Changes in Net Position For the Years Ended June 30,								
	Governmental Activities		Business-Type Activities		Total		Dollar Change	Percent Change

Analysis of Changes in Net Position

AEDA's net deficit overall decreased by \$8.4 million during the fiscal year 2023, compared to a \$71.6 million increase during the fiscal year 2022. The governmental activities component change in net position for 2023 was an increase of \$5.4 million and for business-type activities, the change in net position was an increase of \$2.9 million. A discussion of these changes is presented in the government and business-type activities below.

Governmental Activities. Approximately 90% of AEDA's Governmental Activities revenues came from state grants and contributions, and 10% from other sources. AEDA's expenses cover a range of services. The largest expenses are incentives and subsidies with 78%, and general government and others with 22% of total expenses.

Business-Type Activities. The enterprise fund net position increased to \$2.9 million during the fiscal year 2023.

The following table focuses on the cost of each of AEDA's largest functions/programs as well as each function/program's net cost (total cost less charges for services generated by the programs, Commonwealth's contributions, and grants):

Commonwealth of Puerto Rico

FINANCIAL ANALYSIS OF AEDA'S FUNDS

Governmental Funds

The focus of AEDA's governmental funds is to provide information on near-term inflows, outflows, and balances of resources available for spending. Such information is useful in assessing AEDA's financing requirements. Fund balances for the governmental funds are reported in classifications that comprise a hierarchy based on the extent to which the government honors constraints on the specific purposes for which amounts in those funds can be spent.

Commonwealth of Puerto Rico
Agricultural Enterprises Development Administration

An unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of the fiscal year 2023, AEDA's governmental funds reported combined ending fund balances of \$26.7 million, which represents a net decrease of approximately \$0.7 million respect to the prior year. \$12.9 million is available for spending at the government's discretion (i.e., unassigned fund balance). The remainder fund balance is nonspendable or committed to indicate that is not available for new spending because it has already been committed.

The general fund is the operating fund of AEDA. The unassigned Fund Balance of the General Fund presents a surplus of \$25.9 million.

For the fiscal year 2023, the surplus of the general fund increased by \$1 million in comparison to prior year which presented a decrease of \$0.9 million.

Enterprise Fund

AEDA's enterprise fund provides the same type of information found in the government-wide financial statements but in more detail.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of the fiscal year, AEDA invested \$18.9 million (net of accumulated depreciation) in a broad range of capital assets, including buildings, land, vehicles, and equipment. This amount represents a net decrease of \$0.9 million or 4% less than in the prior year.

AEDA acquired a total of \$734,767 of capital assets during the fiscal year 2023. Governmental Activities additions were \$573,777 and Business-Type Activities were \$160,990.

The following table presents the components of capital assets for the fiscal years 2023 and 2022:

Commonwealth of Puerto Rico Agricultural Enterprises Development Administration Capital Assets, Net As of June 30,

NONCURRENT LIABILITIES

At year-end, AEDA had \$202.2 million in outstanding debt, including line of credit, notes payable, payroll-related liabilities, legal claims, and pension liability. This amount represents a decrease of \$19.3 million or (8.7%) with respect to the prior year. Following is a summary of AEDA's outstanding long-term debts as of June 30, 2023, and 2022:

DEFERRED OUTFLOWS / INFLOWS OF RESOURCES

Deferred Outflows of Resources

This classification balance, although similar to "assets," is set apart because these items do not meet the technical definition of being an asset of AEDA on the date of the financial statements. In other words, these amounts are not available to pay liabilities in the way assets are available. When all the recognition criteria are met, the deferred outflow of resources will become an expense/expenditure.

The most significant deferred outflows of resources reported are related to the implementation of GASB Statement No. 73 for pension liability reporting. On June 30, 2019, AEDA adopted the provisions of GASB Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement No. 68". This statement requires that governmental employers whose employees are provided with defined benefit pensions recognize a liability and pension expense and report deferred outflows of resources and deferred inflows of resources related to pensions administered through a trust that do not meet the requirements of GASB Statement No. 73. AEDA's pension plan is administered by the Employees

Deferred Outflows of Resources, cont.

Retirement System Administration ("ERS"). However, there may be some deferred outflows of resources attributable to the various components that impact pension changes, and may include investment changes amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

Deferred Inflows of Resources

Deferred inflows of resources are the counterpart to deferred outflows of resources on the Statement of Net Position. Deferred inflows of resources are not technically liabilities of AEDA as of the date of the financial statements. When all the recognition criteria are met, the deferred inflow of resources will become revenue or an increase in the net position.

Deferred inflows of resources related to pensions represent a net amount attributable to the various components that impact pension changes and may include investment changes amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

CURRENTLY KNOWN FACTS

The following is a summary description of currently known facts, decisions, and conditions that have had or are expected to have an impact on AEDA's financial position and results of operations.

COVID-19 PANDEMIC

On March 11, 2020, the World Health Organization - WHO - declared the coronavirus disease (COVID-19) a global pandemic. Subsequently, on March 15, 2020, the Commonwealth declared a "State of Emergency and Quarantine" as a consequence of the spread of COVID-19 in Puerto Rico, issuing a series of provisions to contain its spread, such as exceptional restrictive traffic measures, the drastic reduction of activities and the issuance of economic regulations, among others; that have affected and are expected to significantly affect the economic activity of the country and the markets in general. Subsequent executive orders have been issued through the date of the financial statements to continue addressing the pandemic, always in an attempt to balance the measures directed to containing the spread of the virus with those measures geared toward the stabilization of the economy. Extensive economic stabilization measures have been enacted by both the Federal and local governments, in order to alleviate the heavy impact of this pandemic on economic activity. As the Commonwealth observes and assesses the results of the reopening of the economy, it will continue to re-evaluate and further amend business restrictions as necessary to promote economic recovery while preserving the health, welfare, and safety of the people of Puerto Rico. At the date of issuance of the financial statements, the duration of the aforementioned exceptional measures and the effects that they may have on AEDA cannot be reasonably estimated. To help with the economic impact of the pandemic, the Government of Puerto Rico distributed funds from the federal program Coronavirus State Fiscal Recovery Fund to private's entities and different agencies of the government known as Premium Pay Program. During the audited fiscal year ended on June 30, 2023, AEDA received the amount of \$2 million from this concept.

CONTACTING AEDA'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and creditors with a general overview of AEDA's finances and to demonstrate AEDA's accountability for the money it receives. If you have questions about this report or need additional information, contact AEDA's Office of Finance Affairs at (787) 304-5350 Ext. 2159 or P.O. Box 9200, San Juan, Puerto Rico 00908-0200.

**RECONCILIATION OF THE STATEMENT OF REVENUE,
EXPENDITURES AND CHANGES IN FUND BALANCES –
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2023**

Net Change in Fund Balances of Governmental Funds	\$	(711,808)
Amount reported for Governmental Activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts are:		
Depreciation and Amortization Expense	(656,706)	
Capital Outlays	<u>573,777</u>	
Excess of Depreciation Expense over Capital Outlays		(82,929)
Governmental Funds only report the proceeds received in the disposal of assets. In the Statement of Activities, a gain or loss is reported for each disposal. Thus, the change in net assets differs from the change in fund balance by the cost of the disposed asset.		
		(23,265)
In the Statement of Activities some revenues are recognized that do not provide current financial resources and are not recognized as revenues in the governmental funds until available. Some liabilities are not due and payable on the current period and therefore are not reported in the funds.		
		(394,399)
These activities consist of:		
Change in Reserve for Legal Claims	579,067	
Change in Accrued Compensated Absences Liability	(63,975)	
Change in Total Other Postemployment Benefits Liability	681,466	
Change in Total Pension Liability	<u>5,465,397</u>	
Total Change in Expenses		<u>6,661,955</u>
Change in Net Position of Governmental Activities	\$	<u>5,449,554</u>

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Agricultural Enterprises Development Administration (“AEDA”) is a component unit of the Commonwealth of Puerto Rico created under the Reorganization Plan No. 4 of the Department of Agriculture (the “Department”) on July 29, 2010 (the “Reorganization Plan”). The Reorganization Plan eliminated Rural Development and Agricultural Enterprises Service and Development Administration. The functions of the two entities were transferred to AEDA, which was created to provide a wide variety of services and incentives to the agricultural sector. Under the Reorganization Plan, AEDA has fiscal and operational autonomy and receives administrative support from the Department.

The Secretary of the Department of Agriculture: (1) implements AEDA’s public policy and approves the necessary, appropriate, and suitable standards, rules, and regulations to exercise the power and comply with the purposes of the Reorganization Plan and any applicable law; (2) appoints the Administrator, who administers AEDA in accordance with the provisions of the Reorganization Plan; and (3) may delegate to the Administrator and, at the same time, other employees of AEDA, such powers, and duties as it deems necessary, except the power to regulate.

Summary of Significant Accounting Policies

The accompanying basic financial statements of AEDA have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”), as prescribed by the Governmental Accounting Standard Board (“GASB”).

Measurement Focus

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

Government-Wide Financial Statements (“GWFS”)

The GWFS are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is generally recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which AEDA gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and entitlements. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been met, other than time requirements. These resources relate to a future period (when the advance is first permitted to be used by the government-mandated non-exchange transaction or a voluntary non-exchange transaction) and, therefore, should be classified as deferred inflows of resources until the resources are first permitted to be used.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Governmental Funds Financial Statements (“GFFS”)

The GFFS are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For these purposes, AEDA considers revenues to be available if they are collected within sixty (60) days after the end of the current fiscal period. Revenues that AEDA earns by incurring obligations are recognized in the same period as when the obligations are recognized. For the fiscal year ended on June 30, 2023, all revenue sources met the availability criterion.

Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or when the availability requirements have been met, and the amount is received during the period or within the availability period for this revenue source (i.e., 60 days of year-end). However, those resources not available for spending in the current period should be classified as deferred inflows of resources. Expenditures-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Accordingly, such resources, if any, should be reported as unearned revenue in the liability section of the GFFS general fund’s Balance Sheet. All other revenue items are measurable and available only when cash is received by AEDA.

Expenditures are recorded when the related fund liability is incurred, as under the accrual basis of accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Principal and interest on notes payable are recorded when they mature (i.e., when payment is due). Proceeds from long-term debt and acquisitions under capital leases, if any, are reported as other financing sources and uses.

Basis of Presentation

The accompanying basic financial statements present the financial position of the governmental activities, business-type activities, each major governmental fund, and the aggregate remaining fund information of AEDA as of June 30, 2023, and the respective changes in financial position, and the cash flows, where applicable, thereof for the fiscal year then ended, in conformity with GAAP, as prescribed by GASB.

The basic financial statements of AEDA have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) in the United States of America as applicable to local governmental units. The basic financial statements include both government-wide (based on AEDA as a whole) and fund financial statements, which provide a more detailed level of financial information. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Basis of Presentation, cont.

Principal revenue sources include Commonwealth's appropriations, charges for services, grants, and contributions.

Expenditures are generally recorded when a liability is incurred, as under the accrual basis of accounting. Modifications to the accrual basis of accounting include the following:

- Employees vested in annual vacation and sick leave are recorded as expenditures when matured. The unmatured amount of accumulated annual vacation leave as of June 30, 2023, is reported only in the GWFS.
- Interest and principal on general long-term obligations are recorded when due, except for interest and principal due on July 1 of the following fiscal year, if resources are available for payment as of June 30.
- Debt service expenditures, federal funds' cost disallowances, other long-term obligations, and amounts subject to judgments under litigation are recorded in the governmental funds only when payment is due; and in the case of judgments under litigation, when a settlement has been made and awaiting payment. Until these criteria are met, these liabilities are recorded only in the GWFS.

A summary reconciliation of the difference between the total fund balances as reflected in the governmental funds' balance sheet and the net position of governmental activities as shown in the government-wide statement of net position is presented in the accompanying reconciliation of the balance sheet of governmental funds to the statement of net position.

A summary reconciliation of the difference between the net change in fund balances as reflected in the governmental funds statement of revenue, expenditures, and changes in fund balances and the change in net position in the statement of activities of the government-wide financial statements is presented in the accompanying reconciliation of revenue, expenditures, and changes in fund balances of governmental funds to the statement of activities.

Proprietary Funds and Fiduciary Funds – The financial statements of the proprietary funds and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting, like the GWFS.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses. The major sources of revenue of the proprietary funds are service charges (e.g., the sale and distribution of coffee).

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Basis of Presentation, cont.

Government-Wide Financial Statements (“GWFS”)

The GWFS (i.e., statement of net position, statement of activities) reports information on all the nonfiduciary activities of AEDA. For the most part, the effect of interfund activity has been removed from the GWFS. Governmental Activities, which normally are supported by Commonwealth’s appropriations, are reported separately from Business-Type Activities, which rely to a significant extent on charges for services or which are financed and operated in a manner like private business enterprises.

The GWFS is prepared using the economic resources measurement focus and the accrual basis of accounting. This approach differs from the way GFFS are prepared. Therefore, GFFS includes reconciliations with brief explanations to better identify the relationship between the GWFS and the GFFS.

The statement of net position presents the reporting entities’ nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the residual measure reported as net position. Net position is reported in two categories:

- *Net Investment in Capital Assets* – This component of net position consists of capital assets net of accumulated depreciation and reduced by the outstanding balance of any bonds, mortgages, notes, or other borrowings that are directly attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at year-end, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of this component of net position. Rather, that portion of the debt or deferred inflows of resources is included in the same net position component (restricted or unrestricted) as the unspent amount.
- *Unrestricted Net Position* – This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

When both restricted and unrestricted resources are available for use, generally, it is AEDA’s policy to use restricted resources first, then unrestricted resources as they are needed. Designations solely imposed by AEDA’s management are not presented as restricted net position.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Government-Wide Financial Statements (“GWFS”), cont.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses for centralized services and administrative overhead are allocated among the programs and functions using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not.

Program revenue includes charges to customers who purchase, use, or directly benefit from goods or services provided by a given function or segment. Program revenue also includes grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenue that is not classified as program revenue, including rent and interest, are presented as general revenue. Resources that are dedicated internally are reported as general revenue rather than as program revenue.

For the most part, the effect of inter-fund activity has been removed from these statements. The government-wide *Statement of Activities* presents a comparison between expenses, both direct and indirect, and program revenues for each of the programs of AEDA.

Governmental Funds Financial Statements (“GFFS”)

The GFFS (i.e., balance sheet, statement of revenues, expenditures, and changes in fund balances) provides information about AEDA’s funds. The emphasis of fund financial statements is on major governmental funds displayed in a separate column. Non-major funds are summarized in a single column.

Each fund is a separate accounting entity with a self-balancing set of accounts used to record the financial transactions and balances of that entity. Individual funds have been established as stipulated by legal provisions or by administrative discretion. AEDA uses fund accounting, which is designed to demonstrate legal compliance, segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with legal, financial, and contractual provisions.

The general fund is always considered a major fund. Governmental funds other than the general fund must be reported as major funds if they meet both the ten percent and five percent criterion, defined respectively as (a) an individual governmental fund reports at least ten percent of any of the following: (i) total governmental fund assets and deferred outflows; (ii) total governmental fund liabilities and deferred inflows; (iii) total governmental fund revenues; or (iv) total governmental fund expenditures; or (b) an individual governmental fund reports at least five percent of the aggregated total for both governmental funds and enterprise funds of any one of the items for which it met the ten percent criterion. In addition, a fund may be reported as major if it is believed to be of importance to financial statement users.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Governmental Funds Financial Statements (“GFFS”), cont.

Governmental Funds focus on the sources and uses of funds and provide information on near-term inflows, outflows, and balances of available resources. AEDA reports the following governmental funds as of June 30, 2023:

- *General Fund* – The General Fund is the primary operating fund of AEDA. It is used to account for and report all financial resources received and used for those services traditionally provided by a government, except those required to be accounted for and reported in another fund. The financial resources received and used in the General Fund mostly include Commonwealth’s contributions as approved by the Legislature and as adjusted for timing and basis of accounting differences. The General Fund also includes nonrecurring Federal Grants received from the Unallied Management Project through the National Oceanic and Atmospheric Administration (NOAA), and the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).
- *Incentive Fund* – This major fund accounts for resources devoted to providing farmers support, subsidies, economic incentives, protection, and provision of agricultural resources to develop infrastructure, entrepreneurship, and implementation of necessary technology for the following industries: apiculture, poultry, coffee, livestock, dairy, fisheries, swine, vegetable, fruit, food, and producers of rabbits, goats, and sheep.
- *Joint Resolutions Fund* - This major fund accounts for joint resolutions from the Commonwealth’s Legislative Assembly assigned to AEDA to develop several infrastructure projects. Also, this fund makes contributions and transfers to other agencies and municipalities for capital projects.
- *Federal Grants Fund* – The Federal Fund accounts for revenues and expenditures related to WIC Farmers’ Market Nutrition Program and Senior Farmers’ Market Nutrition Program from the US Department of Agriculture.

The GFFS are the following:

- *Balance Sheet* – Reports information as of June 30, 2023, about the current financial resources (assets, liabilities, and fund balances) of each major governmental fund. Generally, reflects only assets that will be converted into cash to satisfy current liabilities. Long-term assets and those assets that will not be converted into cash to satisfy current liabilities are generally not accounted for in the accompanying *Balance Sheet – Governmental Funds*.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Governmental Funds Financial Statements (“GFFS”), cont.

- *Statement of Revenue, Expenditures, and Changes in Fund Balances* – Reports information about the revenues and expenditures of the governmental funds for the fiscal year ended June 30, 2023. The measurement focus of the GFFS is on decreases in net financial resources (i.e., expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related governmental fund liability is incurred. Allocation of costs, such as depreciation and amortization, are recorded in the accompanying *Statement of Activities* but are not recorded in the accompanying GFFS.

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the classification of fund balance is based on the extent to which AEDA is bound to observe constraints imposed upon the use of resources in governmental funds. The classifications are as follows:

- *Non-spendable* – Amounts that are not in a spendable form or are legally or contractually required to be maintained intact.
- *Restricted* – Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for a specific purpose.
- *Committed* – Amounts that are constrained for specific purposes that are internally imposed by the government’s formal action at the highest level of decision-making authority. The highest level of decision authority for AEDA is the Secretary of the Department of Agriculture.
- *Assigned* – includes fund balance amounts that are constrained and are intended to be used for specific purposes that are neither considered restricted nor committed. The Administrator of AEDA is authorized to assign an amount for a specific purpose.
- *Unassigned* – is the residual classification for the General Fund. In a governmental fund other than the General Fund, a negative amount indicates that the expenditures incurred for a specific purpose exceeded the amounts in the fund that are restricted, committed, and assigned to that purpose.

AEDA uses restricted amounts first when both restricted and unrestricted fund balances are available unless there are legal documents/contracts that prohibit doing this (e.g., grant agreement requiring dollar-for-dollar spending). Additionally, unless required by law or agreement, AEDA would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. AEDA does not have a formal minimum fund balance policy.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Governmental Funds Financial Statements (“GFFS”), cont.

Enterprise Funds

The enterprise funds follow the accrual basis of accounting. Under the accrual basis, revenue is recognized when earned and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash, respectively. The enterprise funds also distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund’s principal ongoing operation. Revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

AEDA includes as operating transactions in the Agricultural Services Fund (i.e., enterprise fund) any activity undertaken during the ordinary business, as well as ancillary activities or activities that are a natural extension of, or that result from these activities. Transactions resulting from events or transactions clearly distinct from ordinary activities and which are not expected to occur frequently or regularly are reported as non-operating transactions. This fund accounts for those activities for which the intent of management is to recover, primarily through charges for services or goods, and the cost of providing goods or services to the public.

The financial statements of the Agricultural Services Fund are the following:

Statement of Net Position – Assets and liabilities are presented in a classified format to distinguish between current and long-term assets and liabilities. The deferred outflows/inflows of resources are presented as part of the implementation of GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*, and GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions*.

Statement of Revenue, Expenses, and Changes in Fund Net Position – Revenue and expenses are reported by distinguishing between operating and non-operating revenues and expenses.

Statement of Cash Flows – The primary purpose of the *Statement of Cash Flows* is to provide relevant information about the cash receipts and disbursements of AEDA during the fiscal year. The information of the *Statement of Cash Flows* should help financial report users assess AEDA’s: (i) ability to generate future net cash flows; (ii) ability to meet its obligations as they come due; (iii) needs for external financing; and (iv) reasons for differences between operating income and associated cash receipts and disbursements and the effects on Agricultural Services Fund’s financial position of operating, capital and related financing activities, non-capital related financing activities and investment activities during the period.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Governmental Funds Financial Statements (“GFFS”), cont.

Enterprise Funds, cont.

The accompanying statement of cash flows is presented in accordance with the provisions of GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*. For purposes of reporting cash flows, cash includes cash on hand, amounts due from banks, and items in process of collection.

Fiduciary Funds

The accounting used for fiduciary funds is much like that used for proprietary funds. Fiduciary funds follow the accrual basis of accounting. Fiduciary Funds are used to account for assets held by AEDA in a trustee capacity, or as an agent for individuals, private organizations, and other governmental units. The fiduciary fund is not accounted for in the statement of Net Position because the resources of the fund are not available to support AEDA’s programs. AEDA’s fiduciary fund is considered a Custodial Fund. These are custodial in nature and do not involve measurement of the results of operations.

Risk Management

The Commonwealth of Puerto Rico purchases commercial insurance covering casualty, theft, tort, claims, and other losses for AEDA. AEDA reimburses the Commonwealth for premium payments made on its behalf. AEDA’s current insurance policies have not been canceled or terminated.

For workers’ compensation, the State Insurance Fund Corporation, a component unit of the Commonwealth of Puerto Rico, provides workers’ compensation insurance to AEDA’s employees.

AEDA is authorized to deposit only in financial institutions approved by the Department of the Treasury of the Commonwealth of Puerto Rico, and such deposits should be kept in separate accounts in the name of AEDA. Under Puerto Rico statutes, public funds deposited in commercial banks must be fully collateralized for the amount deposited in excess of the amounts insured by the Federal Deposit Insurance Corporation.

This space is intentionally left in blank

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. Significant estimates made by management include the allowance for loan losses, the useful lives of capital assets, the valuation of capital assets, and accruals for legal claims and other contingencies. The current economic environment has increased the degree of uncertainty inherent in estimates and assumptions.

Cash and Cash Equivalents

AEDA considers all highly liquid investments with an original maturity of three (3) months or less when purchased to be cash equivalents. The cash balances are available to meet the current operating requirements in various interest-bearing accounts with commercial banks.

Receivables and Payables

The receivables are shown net of estimated allowances for uncollectible accounts, which are determined by past collection experience, historical trends, and current economic conditions. Receivables represent mostly agricultural service charges corresponding to June revenues collected thereafter. Intergovernmental receivables (e.g., due from Commonwealth, due from Commonwealth's public corporations) represent amounts owed to AEDA pursuant to charges for services and state contributions. Accounts payable represent amounts, including salaries and wages, payable for goods and services received prior to year-end.

Intergovernmental receivables are stated net of estimated allowances for uncollectible accounts, which are determined, based on past collection experience and current economic conditions. This intergovernmental revenue is recognized in the governmental funds when it becomes measurable and available based on actual collections for 90 days following the fiscal year-end related to transactions that occurred before the end of the year.

The accounts receivable from nongovernmental customers are net of estimated uncollectible amounts. These receivables arise primarily from service charges to users. Accounts receivable from Commonwealth and from Commonwealth's public corporations are evaluated for collectability.

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, cont.**

Significant Accounting Policies, cont.

Federal Grants

Contributions received from federal grants are recorded as operating revenues under the U.S. Department of Agriculture (“USDA”) and National Oceanic and Atmospheric Administration (“NOAA”) programs in the accounting period in which all eligibility requirements and/or time and purposes restrictions are met.

Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (“FIFO”) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both GWFS and GFFS.

Interfund Transactions

During its operations, AEDA has activities among the funds that represent flows of assets without the requirement for repayment and are reported as interfund transfers. These are reported as “transfer-out” in the fund that issues the transfers and as “transfer-in” in the fund receiving the transfers.

Capital Assets

Capital assets, which include buildings and improvements, equipment, furniture and fixtures, motor vehicles, and others, are reported in the applicable governmental or business-type activities column in the GWFS. Capital assets are defined by AEDA as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. For improvements other than buildings, the capital outlay must be greater than \$5,000, extend the estimated useful life for ten years, and be greater than 10% of the original cost of the asset.

This space is intentionally left in blank

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies, cont.

Capital Assets, cont.

As AEDA constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essential amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, AEDA values the capital asset at the estimated fair value of the item at the date of its donation.

Capital outlay is recorded as an expenditure in the General Fund and other governmental funds and as assets in the GWFS to the extent AEDA's capitalization threshold is met. Interest incurred during the construction phase of the capital asset of business-type activities is reflected in the capitalized value of the asset acquired. Depreciation and amortization expense is recorded only in the GWFS. No depreciation is recorded for land and construction in progress. Other properties, equipment, furniture and fixtures, and motor vehicles of the primary government are depreciated using the straight-line method over the following estimated useful lives:

CAPITAL ASSETS	YEARS
Buildings	40
Building Improvements	40
Equipment, Furniture & Fixtures, and Motor Vehicles	5 - 20
Other	5

Depreciation and amortization expense of capital assets is recorded as a direct expense of the function/program specifically identified with the asset.

Impaired capital assets that will no longer be used by AEDA, if any, are reported at the lower of the carrying value or the fair value. Impairment losses on capital assets with physical damages that will continue to be used by AEDA are measured using the restoration cost approach. Impairments of capital assets that are subject to a change in the manner or duration of use, assets affected by enactment or approval of laws or regulations or other changes in environmental factors, or assets that are subject to technological changes or obsolescence, if any, are measured using the service units' approach.

Leases

A lease liability and an intangible right-to-use lease asset (RTU lease asset) are recognized in the government-wide financial statements for each noncancelable lessee transaction.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies, cont.

Leases, cont.

At the commencement of each lease, the lease liability is measured at the present value of payments expected to be made during the lease term. Subsequently, the lease liabilities are reduced by the principal portions of lease payments made. The RTU lease assets are measured as the initial amount of the individual lease liabilities, adjusted for lease payments made at or before the lease commencement dates, plus certain initial direct costs. Subsequently, the RTU lease assets are amortized on a straight-line basis over their useful lives.

Key estimates and judgments related to leases include how the AEDA determines the discount rate it uses to discount the expected lease payments to present value, lease term, and lease payments.

- The interest rate charged by the lessor is used as the discount rate. When an interest rate charged by the lessor is not provided, the estimated incremental borrowing rate is used as the discount rate for leases.
- The lease terms include the noncancelable period of the leases and option years that the AEDA is reasonably certain to exercise. Lease payments included in the measurement of the lease liabilities are composed of fixed payments and purchase option prices that the AEDA is reasonably certain to exercise.

The AEDA monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liabilities. Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

The AEDA is a lessor for noncancelable leases of buildings and equipment. Lease receivables and deferred inflows of resources are recognized in the government-wide and governmental fund financial statements.

At the commencement of the leases, the lease receivables are measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivables are reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the amounts of the lease receivables, adjusted for lease payments received at or before the lease commencement dates. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease terms.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies, cont.

Leases, cont.

Key estimates and judgments include how the AEDA determines the discount rate it uses to discount the expected lease receipts to present value, lease term, and lease receipts.

- The AEDA uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease terms include the noncancelable periods of the leases.
- Lease receipts included in the measurement of the lease receivables are composed of fixed payments from the lessees.

The AEDA monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivables and deferred inflows of resources if certain changes occur that are expected to significantly affect the amounts of the lease receivables. Lease detail is included in Note 13.

Claims and Judgments

The estimated amount of the liability for claims and judgments, if any, which is due on demand, such as from adjudicated or settled claims, is recorded in the General Fund when the liability is incurred. The Non-Current Liabilities include amounts estimated as contingent liabilities or liabilities with a fixed or expected due date, which will require future available financial resources for their payment.

Long-Term Obligations

The liabilities reported in the GWFS include long-term notes, and other noncurrent liabilities (e.g., employees' vacations, and noncurrent liabilities to other governmental entities and third parties). Expenditures for principal and interest payments of the government general fund and the incentives fund are recognized in the corresponding fund when due.

Compensated Absences

Compensated absences are accounted for under the provisions of GASB Accounting Standards Codification Section C60, *Compensated Absences*. Compensated absences include paid time off made available to employees in connection with vacation. The liability for compensated absences recorded in the accompanying statement of Net Position is limited to a leave of absence that: (i) is attributable to services already rendered on or before June 30, 2023; and (ii) is not contingent on a specific event (such as illness) that is outside the control of AEDA and the employee. The liability for compensated absences includes salary-related costs, which are directly and incrementally related to the amount of salary paid to the employee (e.g., employer's share of social security and Medicare taxes).

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies, cont.

Compensated Absences, cont.

According to Act 8-2017 and Act 26-2017, the compensated absences policy of the Commonwealth that applies to AEDA's employees provides for a maximum annual accumulation of 15 days of vacations and 18 days of sick leave if hired before February 4, 2017, or 12 days of sick leave if hired after February 4, 2017.

Compensated absences are accrued when incurred using the pay or salary rates in effect at the date of the statement of Net Position. The cost of compensated absences expected to be paid in the next twelve (12) months is classified as a current liability while amounts expected to be paid after twelve (12) months are classified as noncurrent liabilities.

Vacation and sick leave may be accumulated up to a maximum of 67.5 and 99 days, respectively. In the event of employee termination, an employee is paid for accumulated vacation days up to the maximum allowed of 60 days. Termination of employment voids the right of compensation for accumulated sick leave.

Pension Benefits

AEDA accounts for pension costs under the provisions of GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68*, and *Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement No. 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement No. 68 for pension plans and pensions that are within their respective scopes.

The requirements of Statement No. 73 extend the approach for accounting and financial reporting established in Statement No. 68 to all pensions with modifications as necessary to reflect that for accounting and financial reporting purposes, any assets accumulated for pensions that are provided through pension plans that are not administered through trusts that meet the criteria specified in Statement No. 68 should not be considered pension plan assets. It also requires that information like that required by Statement No. 68 be included in notes to the financial statements and required supplementary information by all similarly situated employers and non-employer contributing entities.

Refer to Note 10 for the allocation methodology used by AEDA to report its allocated share of the total pension liability and the related pension accounts.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Significant Accounting Policies, cont.

Voluntary Termination Benefits

AEDA accounts for termination benefits in accordance with GASB Statement No. 47, *Accounting for Termination Benefits* (“GASB 47”). Pursuant to the provisions of GASB 47, AEDA, as an employer, should recognize a liability and expense for voluntary termination benefits (e.g., early retirement incentives) when the offer is accepted, and the amount can be estimated. A liability and expense for involuntary termination benefits (e.g., severance benefits) should be recognized when a plan of termination has been approved by those with the authority to commit the government to the plan, the plan has been communicated to the employees, and the amount can be estimated.

Other Postemployment Benefits

AEDA participates in the Other Postemployment Benefit Plan for Retired Employees of the Commonwealth (“OPEB”), which is an unfunded, multi-employer defined benefit other post-employment healthcare benefit plan (“OPEB Plan”) provided by the Commonwealth to its retired plan members. The Plan is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions* (“GASB 75”). Because certain employers that are component units of the Commonwealth, such as AEDA, prepare individual financial statements, a proportionate share of OPEB expense is determined for those employers.

GASB 75 requires that such proportionate share should be consistent with the way the amounts that are paid as benefits come due are determined. The proportionate share as of each measurement date is based on the ratio of each agency and component unit's actual benefit payments to the total actual benefit payments paid during the year ending on the measurement date.

Deferred Outflows/ Inflows of Resources

In addition to assets and liabilities, the Statement of Net Position includes separate sections for deferred outflows/inflows of resources. Such separate financial statement elements, deferred outflows/inflows of resources, represent a depletion (expenses/expenditures) or accretion (income) of net position that applies to a future period, and thus, will not be recognized as an outflow/inflow of resources until then.

Enterprise Fund Operating and Non-operating Revenue and Expenses

The principal operating revenue of AEDA’s enterprise fund is from charges to customers for the sale and distribution of coffee. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Recently Implemented Accounting Pronouncements

The following new accounting standards have been issued but are not yet effective for the fiscal year ended June 30, 2023:

- GASB Statement No.91, “Conduit Debt Obligations.” This statement provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with 1) commitments extended by issuers, 2) arrangements associated with conduit debt obligations, and 3) related note disclosures.

GASB No. 91 does not have any impact on the AEDA’s basic financial statements.

- GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement establishes standards of accounting and financial reporting for PPPs and APAs for governments.

GASB No. 94 does not have any impact on the AEDA’s basic financial statements.

- GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements for government end users. The requirements of this statement are effective for reporting periods beginning after June 15, 2022.

GASB No. 96 does not have any impact on the AEDA’s basic financial statements.

Future Adoption Accounting Pronouncements

The Governmental Accounting Standards Board issued the following pronouncements that have effective dates after June 30, 2023. AEDA is currently evaluating its accounting practices to determine the potential impact on the basic financial statements for the GASB Statements.

- GASB Statement No. 99, Omnibus 2023. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during the implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, cont.

Future Adoption Accounting Pronouncements, cont.

- GASB Statement No. 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*. This Statement enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for fiscal years ending after June 15, 2023.
- GASB Statement No. 101, *Compensated Absences*. This Statement updates the recognition and measurement guidance for compensated absences. The requirements of this Statement are effective for fiscal years ending after December 15, 2023.
- GASB issued Statement No. 102, “Certain Risk Disclosures”. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. The requirements of this Statement are effective for fiscal years ending after June 15, 2024.

Management is evaluating the impact that these Statements will have, if any, on AEDA’s basic financial statements when the effective dates apply.

This space is intentionally left in blank

NOTE 2 – CASH AND CASH EQUIVALENTS

Puerto Rico laws authorize governmental entities to invest in direct obligations or obligations guaranteed by the federal government or the Commonwealth. AEDA is also allowed to invest in bank acceptances, other bank obligations, and certificates of deposit in financial institutions authorized to do business under federal and Commonwealth laws.

During the year, AEDA invests its funds in interest-bearing bank accounts. AEDA is authorized to deposit only in institutions approved by the Department of the Treasury of the Commonwealth. Such deposits should be kept in separate accounts in the name of AEDA. Under Puerto Rico statutes, public funds deposited in commercial banks must be fully collateralized for the amount deposited in excess of the amounts insured by the Federal Deposit Insurance Corporation.

AEDA's cash and cash equivalents as of June 30, 2023, consist of the following:

	<u>Book Balance</u>	<u>Depository Bank Balance</u>
<u>GOVERNMENTAL FUNDS</u>		
Cash deposited in commercial banks	\$ 40,345,343	\$ 40,232,184
<u>ENTERPRISE FUNDS</u>		
Cash deposited in commercial banks	34,989,775	39,967,895
Total of cash and equivalents	<u>\$ 75,335,118</u>	<u>\$ 80,200,079</u>

AEDA follows the provisions of GASB Accounting Standards Codification Section C20, *Cash Deposit with Financial Institutions*, related to cash deposits and interest-earning investment contracts with financial institutions. Accordingly, the following is essential information about credit risk, interest rate risk, custodial credit risk, and foreign exchange exposure of deposits and investments of AEDA as of June 30, 2023.

Credit Risk

Credit risk refers to the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As of June 30, 2023, AEDA has invested only in cash equivalents of \$80,200,079 consisting of interest-bearing accounts in commercial banks, which are insured by the Federal Deposit Insurance Corporation ("FDIC"), generally up to a maximum of \$250,000. As previously mentioned, public funds deposited by AEDA in commercial banks must be fully collateralized for the amounts deposited in excess of the FDIC coverage. Neither investments in debt nor equity securities were made during the fiscal year ended on June 30, 2023. Therefore, AEDA's management has concluded that the credit risk related to any possible loss related to defaults by commercial banks on AEDA's deposits is considered low as of June 30, 2023.

NOTE 2 – CASH AND CASH EQUIVALENTS, cont.

Custodial Credit Risk Reserve

This is the risk that, in the event of the failure of a depository financial institution, AEDA will not be able to recover its cash and investments or will not be able to recover collateral securities that are in the possession of an outside party. Pursuant to the Investment Guidelines for the Commonwealth adopted by the Treasury Department, AEDA may invest in obligations of the Commonwealth, obligations of the United States, certificates of deposit, commercial paper, banker's acceptance, or in pools of obligations of the municipalities of Puerto Rico. It is management's policy to only maintain deposits in banks affiliated with the FDIC to minimize the custodial credit risk.

Interest Rate Risk

It is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. AEDA manages its exposure to declines in fair values by (i) not including debt or equity investments in its investments portfolio as of June 30, 2023; (ii) limiting the weighted average maturity of its investments in certificates of deposit to periods of four months or less; and (iii) keeping most of its bank's deposits and certificates of deposit in interest-bearing accounts generating interest at prevailing market rates. Therefore, as of June 30, 2023, the interest risk associated with AEDA's cash and cash equivalents is considered low.

Foreign Exchange Risk

It is the risk that changes in exchange rates will adversely affect the value of an investment or a deposit. According to the investment guidelines adopted, AEDA is prevented from investing in foreign securities or any other types of investments for which foreign exchange risk exposure may be significant. Accordingly, management has concluded that the foreign exchange risk related to AEDA's deposits is considered low as of June 30, 2023.

Fiduciary Fund

Cash equivalents of the fiduciary fund as of June 30, 2023, consist of the following:

	Book Balance	Depository bank balance
	<hr/>	<hr/>
<u>CUSTODIAL FUND</u>		
Cash and cash equivalents	<u>\$ 4,503,905</u>	<u>\$ 6,602,045</u>

NOTE 2 – CASH AND CASH EQUIVALENTS, cont.

As of June 30, 2023, AEDA has on behalf of the fiduciary fund the amount of \$6,602,045 in an interest-bearing account at a commercial bank. Deposits in commercial banks are insured by the FDIC, generally up to a maximum of \$250,000. However, public funds deposited by AEDA in commercial banks must be fully collateralized for the amounts deposited more than the FDIC coverage. Therefore, AEDA's management has concluded that the credit risk related to any possible loss related to defaults by commercial banks on AEDA's Fiduciary Fund is considered low as of June 30, 2023.

NOTE 3 – NOTES AND ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2023, consist of the following:

	Governmental Activities	Business-Type Activities	Total
Current Assets:			
Trade	\$ 8,488,260	\$ 5,345,965	\$ 13,834,225
Due from Other Governmental Entities	1,337,748	20,535,268	21,873,016
Due from Commonwealth's Public Corporation	1,500,000	-	1,500,000
Lease Receivable	433,484	-	433,484
Other	2,773,622	909,954	3,683,576
Total	14,533,114	26,791,187	41,324,301
Non-current Assets:			
Due from Commonwealth's Public Corporation	5,935,927	-	5,935,927
Less: Allowance for doubtful accounts	(12,131,964)	(26,086,062)	(38,218,026)
Notes and accounts receivable, net	\$ 8,337,077	\$ 705,125	\$ 9,042,202

Changes in the allowance for doubtful accounts during the year ended June 30, 2023, are as follows:

	Governmental Activities	Business-Type Activities	Total
Allowance for doubtful accounts, beginning of year	\$ 12,066,245	\$ 26,029,139	\$ 38,095,384
Plus: Provision for doubtful accounts	65,719	56,923	122,642
Allowance for doubtful accounts, end of year	\$ 12,131,964	\$ 26,086,062	\$ 38,218,026

NOTE 3 – NOTES AND ACCOUNTS RECEIVABLE

Notes Receivable:

Due From Commonwealth's Public Corporation

Due from Commonwealth's Public Corporation balance as of June 30, 2023, for the Governmental Activities is composed of the following:

- Note Receivable of \$5,000,000 with the "Corporación de Seguros Agrícolas" with a maturity date of Three (3) months after the expenditure was made by AEDA, no annual interest rate. The balance as of June 30, 2023, is \$3,326,341.
- Note Receivable of \$1,500,000 with the "Corporación de Seguros Agrícolas" with a maturity date one year after expenditure was made by AEDA, no annual interest rate. The balance as of June 30, 2023, is \$1,500,000.

NOTE 4– INVENTORIES

Inventories, including supplies, are stated at the lower cost or market determined using the first-in, first-out valuation method. The inventory balance by location as of June 30, 2023, is as follows:

Description	Location	Valuation
Business Type:		
Coffee - Yahuecas	Adjuntas	\$ 1,390,881
Other	Various	891,743
		<u>2,282,624</u>
Inventory Reserve		<u>(649,929)</u>
Total Inventory		<u>1,632,695</u>
Governmental Type:		
Supplies	Various	<u>194,727</u>
Total Inventory and Supplies		<u>\$ 1,827,422</u>

NOTE 5 – CAPITAL ASSETS

A summary of the activity of capital assets of the Governmental Activities follows:

CAPITAL ASSETS, NET	\$ 14,758,483	\$ (707,702)	\$ (25,665)	\$ 14,025,116

Depreciation and amortization expenses of Governmental Activities were charged to general governmental administrative and operating functions. Depreciation expenses of Business-Type Activities were charged to agricultural services for the year ended June 30, 2023.

Accounting for the impairment of capital assets

AEDA accounts for assets impairment under the provisions of GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. The statement establishes accounting and financial reporting standards for the impairment of capital assets. A capital asset is considered impaired when the utility of its service has declined significantly and unexpectedly. The statement also establishes accounting requirements for insurance recoveries. A capital asset generally should be considered impaired if both: (i) the decline in service utility of the capital asset is large in magnitude; and (ii) the event of a change in circumstances is outside the normal life cycle of the capital asset. Impaired capital assets that will no longer be used by AEDA should be reported at the lower of carrying value or fair value. As of June 30, 2023, no capital assets were considered impaired by AEDA.

NOTE 6 – FIDA TRANSACTIONS

Line of Credit

Line of credit balance as of June 30, 2023, for the Governmental Activities is composed of the following:

- Revolving line of credit of \$7,800,000 with the “Fondo Integral para el Desarrollo Agrícola de Puerto Rico” with a maturity date of June 24, 2014, at a fixed annual interest rate of 6.50%. Balance as of June 30, 2023, is \$71,728 of principal and \$30,800 of accrued interest.

Note payable

Note payable balance as of June 30, 2023, for the Governmental Activities is composed of the following:

- Debt obligation originally of \$11,837,802 with the “Fondo Integral para el Desarrollo Agrícola de Puerto Rico” with a maturity date of June 30, 2016, payable in six (6) equal annual installments of \$1,469,168 of principal and fixed annual interest rate of 6%. Balance as of June 30, 2023, is \$771,554 of principal and \$237,935 of accrued interest which was classified as payable due within one year since its past due for this audited period.

NOTE 7 – LONG TERM OBLIGATIONS

The following summarizes the activities of the long-term obligations as of June 30, 2023:

	Balance at June 30, 2022	Increase	Decrease	Balance at June 30, 2023	Due within One Year	Due after One Year
Governmental Activities:						
Line of Credit	\$ 71,728			\$ 71,728	\$ 71,728	\$ -
Notes Payable	771,554			771,554	771,554	-
Leases Payable	152,256		(30,811)	121,445	31,167	90,278

Total Other Postemployment Benefits	4,352,775	582,211		4,934,986	296,520	4,638,466
Total Pension Liability	130,579,410		(11,457,114)	119,122,296	5,881,456	113,240,840
TOTAL	\$ 140,821,655	\$ 588,050	\$ (12,467,197)	\$ 128,942,508	\$ 7,671,158	\$ 121,271,350

NOTE 8 – VOLUNTARY TERMINATION BENEFITS

On July 2, 2010, the Commonwealth enacted Act No. 70, known as “Law of the Incentive Program, Retirement, and Retraining” (Act No. 70) establishing a program that provides benefits for early retirement or economic incentives for voluntary employment termination to eligible employees, as defined, including employees of AEDA. Act No. 70 established that early retirement benefits will be provided to eligible employees that have completed between 15 to 29 years of credited service in the Retirement System and will consist of biweekly benefits ranging from 37.5% to 50% of each employee's salary, as defined. In this early retirement benefit program, AEDA will make the employer contributions to the Retirement System and pay the corresponding pension until the employee complies with the requirements of age and 30 years of credited service in the Retirement System. Economic incentives are available to eligible employees who have less than 15 years of credited service in the Retirement System or who have at least 30 years of credited service in the Retirement System and the age for retirement or who have the age for retirement. Economic incentives will consist of a lump-sum payment ranging from one-month to six-month salary based on employment years. Additionally, eligible employees that choose to participate in the early retirement benefit program or that choose the economic incentive are eligible to receive health plan coverage for up to 12 months in a health plan selected by the management of AEDA.

The financial impact resulting from the benefits granted to participants in this program was the recognition within AEDA's financial statements of liability of \$5,223,338 in the statement of net position as of June 30, 2023. As of June 30, 2023, unpaid long-term benefits granted on this program were discounted at 3.30%.

On December 8, 2015, the Commonwealth enacted a program based on provisions established on Act No. 211. All eligible employees may retire from employment in exchange for an early pension and other benefits. Furthermore, Act No. 211 provides those eligible employees may retire from employment in exchange for an early pension and other benefits. Act No. 211 only applied to employees with twenty years or more participating in the ERS created pursuant to Act No. 447 of 1951 and who have not reached 61 years of age.

Act No. 211, known as “Voluntary Pre-Retirement Program Act” (Act No. 211) provides that the employee will receive an annuity equivalent to 60% of the average compensation, as defined, as of December 31, 2015, and until the participating member has attained 61 years old, which is the age the employee will become part of the ERS. AEDA is responsible for the payment of the employer contribution to Social Security and Medicare, based on 60% of the average compensation as of December 31, 2015. Also, AEDA is responsible for the payment of the related employee and employer contributions to the ERS based on 100% of the average salary as of December 31, 2015, for amounts that guarantee a 50% minimum compensation to an eligible employee of its average compensation as of June 30, 2013. The participating employee will also receive the benefits of health insurance for a period not more than two years or when the employee reaches 61 years old, whichever comes first.

As of June 30, 2023, the total liability related to these termination benefits was approximately, \$631,451. Payments of such voluntary termination plans are expected to be made until 2030.

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (“OPEB”)

Plan Description

In addition to the pension benefits described in Note 10, AEDA participates in the Other Postemployment Benefit Plan of the Commonwealth of Puerto Rico for Retired Participants of the Employees’ Retirement System (the “OPEB plan”), through the Employees Retirement System & its Instrumentalities Medical Insurance Plan Contribution (ERS MIPC), in accordance with Act No. 106 of 2017.

The OPEB plan is an unfunded defined benefit plan administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB Statement No. 75). Under the guidance of GASB Statement No. 75, the Commonwealth and its component units are one employer and are classified for financial reporting purposes as a single employer defined benefit OPEB plan.

The OPEB plan covers a payment of up to \$100 per month to the eligible medical insurance plan selected by each member provided that the member retired prior to July 1, 2013 (Act No. 483, as amended by Act No. 3 of 2013). The OPEB Plan is financed by the Commonwealth through legislative appropriations. There is no contribution requirement from the plan members during active employment. The retirees contribute the amount of the healthcare insurance premium not covered by the Commonwealth contribution. Plan members were eligible for benefits upon reaching the applicable retirement age. Act No. 3 of 2013 eliminated this healthcare benefit to the OPEB plan members that retired after June 30, 2013.

Total OPEB Liability, OPEB Expense, and Actuarial Assumptions and Methods

The total OPEB liability is \$7,710,915 as of June 30, 2023. The total OPEB liability as of June 30, 2023, was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022 (measurement date). As of June 30, 2023, AEDA's proportion was 1.10852%, which resulted in an increase of 0.25636% from its proportion as of June 30, 2022 (using the measurement date as of June 30, 2022). AEDA recognized an OPEB expense of approximately \$336,782 during the year ended June 30, 2023. The actuarial valuation used the following actuarial assumptions applied to all periods in the measurement period.

Proportion June 30, 2021	0.85216%
Proportion June 30, 2022	1.10852%
Change - Increase	0.25636%

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (“OPEB”), cont.

Total OPEB Liability, OPEB Expense, and Actuarial Assumptions and Methods, cont.

Discount Rate

The discount rate for June 30, 2022 (measurement date) was 3.54%. This represents the municipal bond return rate as chosen by the Commonwealth. The source is the Bond Buyer General Obligation 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality

- a) *Pre-retirement Mortality* — For general employees not covered under Act No. 127-1958, PubG-2010 Employee Mortality Rates, adjusted by 100% for males and 110% for females projected to reflect Mortality Improvement Scale MP-2022 on a general basis. For members covered under Act No. 127, PubS-2010 Employee Mortality Rates are assumed for males and females, projected to reflect Mortality Improvement Scale MP-2022 on a generational basis. As generational tables, they reflect mortal improvements both before and after the measurement dates. 100% of deaths while in active service are assumed to be occupational for members covered under Act 127 as per Milliman’s Actuarial Valuation Report.
- b) *Post-retirement Healthy Mortality* — Rates that vary by gender are assumed for healthy retirees and beneficiaries based on a study of the Plan’s experience from 2013 to 2018 and updated expectations regarding future mortality improvement. The PubG-2010 healthy retiree rates, adjusted by 100% of the rates for Males and 110% for Females, are projected using Mortality Improvement Scale MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.
- c) *Post-retirement Disabled Mortality* — Rates that vary by gender are assumed for disabled retirees based on a study of the Plan’s experience from 2013 to 2018 and updated expectations regarding future mortality improvement. The PubG-2010 disabled retiree rates were adjusted by 80% of the rates for Males and 100% for Females. The base rates are projected using Mortality Improvement Scale MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.
- d) *Post-Retirement Beneficiary Mortality* — Prior to retiree’s death, beneficiary mortality is assumed to be the same as the post-retirement retiree mortality. For periods after the retiree’s death, the PubG-2010 (B) contingent survivor rates, adjusted by 110% for males and 120% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after measurement date.

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (“OPEB”), cont.

Sensitivity of AEDA's Proportionate Share of Total OPEB Liability to Change in the Discount Rate

The following table presents AEDA's proportionate share of the total OPEB liability for the OPEB Plan as of June 30, 2023, calculated using the current discount rate of 3.54% as well as what AEDA's proportionate share of the Plan's total OPEB liability if it were calculated using a discount rate of one percentage point lower (2.54%) or one percentage point higher (4.54%) than the current rate:

Description	At 1% decrease (2.54%)	At current discount rate (3.54%)	At 1% increase (4.54%)
OPEB liability:			
Governmental Activities	\$ 3,021,473	\$ 2,775,929	\$ 2,564,839
Business-Type Activities	5,371,507	4,934,986	4,559,714
	<u>\$ 8,392,980</u>	<u>\$ 7,710,915</u>	<u>\$ 7,124,553</u>

Deferred Outflows of Resources

The deferred outflows of resources related to OPEB Plan resulting from AEDA's benefits payments made after the measurement date amounting to \$529,500 as of June 30, 2023, will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2023. Because all participants are inactive, there are no deferred outflows or inflows of resources as changes in actuarial assumptions, economic or demographic gains and losses, and changes in proportionate share are recognized immediately during the measurement year.

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN

Pension and Plan Description

The Defined Benefit Pension Plan for Participants of the Employees’ Retirement System of the Government of the Commonwealth of Puerto Rico (the Commonwealth) (the Plan) was created pursuant to Act No. 447 on May 15, 1951, as amended (Act No. 447) to provide pension and other benefits to retired employees of the Commonwealth, its public corporations, and municipalities (“ERS participants”). Prior to the effect of Act No. 106 of August 23, 2017 (Act No. 106-2017) the Plan was administered by the Employees’ Retirement System of the Government of the Commonwealth of Puerto Rico. Effective July 1, 2017, all employer contributions were eliminated pursuant to Act No. 106-2017 and the Commonwealth implemented a “pay-as-you-go” (PayGo) system for the payment of pensions. Total employee contributions for the PayGo system during the year ended June 30, 2023, were approximately \$10.2 million.

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

Pension and Plan Description, cont.

As a result of the implementation of the PayGo system, the Plan does not meet the criteria in paragraph 4 of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, to be considered a plan that is administered through a trust or equivalent arrangement and, therefore, is required to apply the guidance in GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Under the guidance of GASB Statement No. 73, the Commonwealth and its component units are considered to be one employer and are classified for financial reporting purposes as a single-employer defined benefit pension plan.

Act No. 106-2017 also terminated the previously existing pension programs for ERS participants as of June 30, 2017, and created a new defined contribution plan (the New Defined Contribution Plan) for existing active members and new employees hired on or after July 1, 2017. This plan is like a 401(k) and is managed by a private entity. Future benefits will not be paid by the Plan. Under the New Defined Contribution Plan, members of the prior programs and new governmental employees hired on and after July 1, 2017, will be enrolled in the New Defined Contributions Program that will be selected by the Retirement Board established under Act No. 106-2017.

Act No. 106-2017, among other things, amended Act No. 447 with respect to the Plan's governance, funding, and benefits for active members of the actual program and newly hired members. Under Act 106-2017, the Plan's Board of Trustees was eliminated, and a new Retirement Board was created. The Retirement Board is currently responsible for governing all the Commonwealth's three major pension systems, including the Plan.

Defined Benefit Program

The benefits provided to the Plan participants are established by Commonwealth law and may be amended only by the Legislature with the Governor’s approval, or by court decision.

Certain plan provisions are different for the three groups of members who entered the Plan prior to July 1, 2013, as described below:

- Members of Act No. 447 are generally those members hired before April 1, 1990 (contributory, defined benefit program).
- Members of Act No. 1 of February 16, 1990 (Act No. 1) are generally those members hired on or after April 1, 1990, and on or before December 31, 1999 (contributory, defined benefit program).
- Members of Act No. 305 of September 24, 1999 (Act No. 305 or System 2000) are generally those members hired on or after January 1, 2000, and on or before June 30, 2013 (defined contribution program).

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

Defined Benefit Program, cont.

All regular employees hired for the first time on or after July 1, 2013, and former employees who participated in the defined benefit program and the System 2000 program, and were rehired on or after July 1, 2013, become members of the Contributory Hybrid Program as a condition to their employment. In addition, employees who on June 30, 2013, were participants of previous programs became part of the Contributory Hybrid Program on July 1, 2013. Also, Act No. 3 of April 4, 2013 (Act No. 3 of 2013) froze all retirement benefits accrued through June 30, 2013, under the defined benefit program and, thereafter, all future benefits accrued under the defined contribution formula used for the System 2000 program participants.

Service Retirement Eligibility Requirements

- (1) *Eligibility for Act No. 447 Members* – members who were eligible to retire as of June 30, 2013, continue to be eligible to retire at any time. Prior to July 1, 2013, Act No. 447 members could retire upon (1) attainment of age 55 with 25 years of credited service, (2) attainment of age 58 with 10 years of credited service, (3) any age with 30 years of credited service. In addition, Act No. 447 members who attained 30 years of credited service by December 31, 2013, are eligible to retire at any time. Act No. 447 members who were not eligible to retire as of June 30, 2013, did not attain 30 years of credited service by December 31, 2013, are eligible to retire with 10 years of credited service upon attainment of the retirement eligibility age shown in the table below.

Date of Birth	Attained age as of June 30, 2013	Retirement Eligibility age
July 1, 1957 or later	55 or less	61
July 1, 1956 to July 30, 1957	56	60
Before July 1, 1956	57 and up	59

- (2) *Eligibility for Act No. 1 Members* – members who were eligible to retire as of June 30, 2013, continue to be eligible to retire at any time. Prior to July 1, 2013, Act No. 1 members could retire upon (1) attainment of age 55 with 25 years of credited service, or (2) attainment of age 65 with 10 years of credited service. Act No. 1 members who were not eligible to retire as of June 30, 2013, are eligible to retire upon attainment of age 65 with 10 years of credited service.
- (3) *Eligibility for System 2000 Members* – members who were eligible to retire as of June 30, 2013, continue to be eligible to retire at any time.

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

Service Retirement Eligibility Requirements, cont.

System 2000 members who were not eligible to retire as of June 30, 2013, are eligible to retire upon attainment of the retirement eligibility age shown in the table below.

Date of Birth	Attained age as of June 30, 2013	Retirement Eligibility age
July 1, 1957 or later	55 or less	65
July 1, 1956 to July 30, 1957	56	64
July 1, 1955 to July 30, 1956	57	63
July 1, 1954 to July 30, 1955	58	62
Before July 1, 1954	59 and up	61

Service Retirement Annuity Benefits

An annuity is payable for the lifetime of the member equal to the annuitized value of the balance in the hybrid contribution account at the time of retirement, plus, for Act No. 447 and Act No. 1 members, the accrued benefit determined as of June 30, 2013. If the balance in the hybrid contribution account is \$10,000 or less, it shall be paid as a lump sum instead of as an annuity. For System 2000 participants this service retirement annuity benefit is not available.

Retirement benefits were determined by the application of stipulated benefit ratios to the member’s average compensation. Average compensation was computed based on the highest 36 months of compensation recognized by the Plan. The annuity, for which a plan member was eligible, was limited to a minimum of \$500 per month and a maximum of 75% of the average compensation.

Refer to the stand-alone financial statements of the Plan for further information on additional benefits.

Total Pension Liability, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2023, AEDA reported a liability of approximately \$186 million for its proportionate share of the total pension liability.

AEDA’s total pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the total pension liability was determined by an actuarial valuation as of July 1, 2021, rolled forward to the measurement date of June 30, 2022. AEDA’s proportion of the total pension liability was based on the ratio of AEDA’s actual benefit payments for allocation to the aggregate total benefit payments for allocation paid by all participating entities during the year ending on the measurement date.

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

Total Pension Liability, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions, cont.

As of June 30, 2023, AEDA's proportion was 0.84022%, which was the June 30, 2022, base as required by GASB No. 73:

Proportion June 30, 2021	<u>0.75054%</u>
Proportion June 30, 2022	<u>0.84022%</u>
Change - Increase (Decrease)	<u>0.08968%</u>

Actuarial Assumptions and Methods:

The actuarial valuation used the following actuarial assumptions applied to all periods in the measurement period.

Discount Rate

The discount rate for June 30, 2022, was 3.54%. This represents the municipal bond return rate as chosen by the Commonwealth. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality

The mortality tables used for June 30, 2022; actuarial valuation was as follows:

a) ***Pre-retirement Mortality***

For general employees not covered under Act No. 127-1958, PubG-2010 Employee Mortality Rates adjusted by 100% for males and 110% for females, projected to reflect Mortality Improvement Scale MP-2021 on a generational basis. For members covered under Act No. 127, PubS-2010 Employee Mortality Rates are assumed for males and females, projected forward using MP-2021 on a generational basis. As generational tables, they reflect mortality improvements both before and after the measurement date. 100% of deaths while in active service are assumed to be occupational for members covered under Act 127-1958.

b) ***Post-retirement Retiree Mortality***

Rates that vary by gender are assumed for healthy retirees and beneficiaries based on a study of the Plan’s experience from 2013 to 2018 and updated expectations regarding future mortality improvement. The PubG-2010 healthy retiree rates, adjusted by 100% for Males and 110% for Females, are projected using Mortality Improvement Scale MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

Actuarial Assumptions and Methods, cont.

c) *Post-retirement Disabled Mortality*

The PubG-2010 disabled retiree rates were adjusted by 80% of the rates for Males and 100% for Females. The base rates are projected using Mortality Improvement Scale MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

d) *Post-Retirement Beneficiary Mortality*

Prior to retiree’s death, beneficiary mortality is assumed to be the same as the post-retirement retiree mortality. For periods after the retiree’s death, the PubG-2010 (B) contingent survivor rates, adjusted by 110% for males and 120% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after measurement date.

Other Assumptions as of June 30, 2022

Actuarial cost method	Entry age normal
Inflation rate	Not applicable
Salary increases	3.00% per year. No compensation increases are assumed until July 1, 2021, because of Act No. 3-2017, a four-year extension of Act No. 66-2014, and the current general economy.

Sensitivity of AEDA's proportionate share of the total pension liability to changes in the discount rate.

The following table presents AEDA's proportionate share of the total pension liability for the Plan calculated using the discount rate of 3.54% as well as what AEDA’s proportion of the total pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Description	At 1% decrease (2.54%)	At current discount rate (3.54%)	At 1% increase (4.54%)
Total Pension Liability:			
Governmental Activities	\$ 74,982,131	\$ 67,006,293	\$ 60,376,075
Business-Type Activities	133,301,563	119,122,296	107,335,242
	<u>\$ 208,283,694</u>	<u>\$ 186,128,589</u>	<u>\$ 167,711,318</u>

NOTE 10 – EMPLOYEE’S RETIREMENT PLAN, cont.

As of June 30, 2023, the reported deferred outflows of resources and deferred inflows of resources related to pensions are related to the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,335,000	\$ 3,946,584
Change in assumptions	15,022,672	14,642,572
Changes in Proportion	12,591,847	1,407,318
Benefits paid subsequent to measurement date	10,502,600	-
	<u>\$ 40,452,119</u>	<u>19,996,474</u>

Deferred outflows of resources related to pension benefit payments made by AEDA subsequent to the measurement date amounted to approximately \$10 million, will be recognized as a reduction of the total pension liability for the ended June 30, 2023.

Sensitivity of AEDA's proportion of the total pension liability to changes in the discount rate.

Amounts reported as deferred outflows/inflows of resources from pension activities as of June 30, 2023, will be recognized in the pension expense (benefit) for the following five years period:

Year ending June 30,	Amount
2024	\$ 1,990,609
2025	1,990,609
2026	1,990,609
2027	1,990,609
2028	1,990,609
Total	<u>\$ 9,953,045</u>

This space is intentionally left in blank

NOTE 11– COMPONENTS OF FUND BALANCE

Fund balances are presented in the following categories: nonspendable, restricted, committed, assigned, and unassigned. A detailed schedule of fund balances on June 30, 2023, is as follows:

	GENERAL FUND	INCENTIVES FUND	JOINT RESOLUTION FUND	FEDERAL FUND	TOTAL GOVERNMENTAL FUNDS
Restricted:					
Nonspendable	\$ 383,718	\$ -	\$ -	\$ 2,744	\$ 386,462
Committed	-	-	10,682,645	2,707,128	13,389,773
Unassigned (Deficit)	<u>25,861,232</u>	<u>(12,928,220)</u>	<u>-</u>	<u>-</u>	<u>12,933,012</u>
Total Fund Balances	<u>\$ 26,244,950</u>	<u>\$ (12,928,220)</u>	<u>\$ 10,682,645</u>	<u>\$ 2,709,872</u>	<u>\$ 26,709,247</u>

NOTE 12 – NET POSITION / FUND BALANCE RESTATEMENTS

Some prior period adjustments were made to correct ending balances pertaining to Fiscal Year 2022, arising from the Accrued Expense account balances. As of June 30, 2022, Accrued Expense balances were overstated by \$3,835,757 million (\$2,758,771 in the Governmental Activities and \$1,076,986 in the Business-Type Activities). These were subsequently corrected for AEDA's accounting records during Fiscal Year 2023. The impact of this adjustment in the beginning Net Position and Fund Balances is detailed as follows:

1) Net Position

The following schedule reconciles the June 30, 2022, Net Position (Deficit), as previously reported, to Beginning Net Position (Deficit), as Restated, July 1, 2022, for Governmental and Business-Type Activities.

	Governmental Activities	Business-Type Activities	Total
Beginning Net Position (Deficit) , As Previously Reported, June 30, 2022	\$ (38,142,611)	\$ (81,207,649)	\$ (119,350,260)
Adjustment correcting accounting error	<u>2,758,771</u>	<u>1,076,986</u>	<u>3,835,757</u>
Beginning Net Position, As Restated July 1, 2022	<u>\$ (35,383,840)</u>	<u>\$ (80,130,663)</u>	<u>\$ (115,514,503)</u>

NOTE 12 – NET POSITION / FUND BALANCE RESTATEMENTS, cont.

2) Fund Balances

The following schedule reconciles the June 30, 2022, Fund Balance, as previously reported, to Beginning Fund Balance, as Restated, July 1, 2022, for Governmental Funds.

	General Fund	Incentives Fund	Joint Resolution Fund	Federal Fund	Total
Beginning Net Position, As Previously Reported, June 30, 2022	\$ 22,499,004	\$ (13,009,591)	\$ 12,525,471	\$ 2,647,400	\$ 24,662,284
Adjustment correcting accounting error	2,758,771	-	-		2,758,771
Beginning Net Position, As Restated July 1, 2022	<u>\$ 25,257,775</u>	<u>\$ (13,009,591)</u>	<u>\$ 12,525,471</u>	<u>\$ 2,647,400</u>	<u>\$ 27,421,055</u>

NOTE 13 – LEASES

A. Lease Receivables

AEDA has entered into contract agreements with third parties to lease land, property and equipment owned by AEDA for commercial and agricultural purposes. The lease terms range from five to fifteen years and AEDA will receive monthly payments that range from \$25 to \$1,140. AEDA recognized \$68,788 in lease revenue and \$7,959 in interest revenue during the current fiscal year. As of June 30, 2023, AEDA's governmental activities receivables for lease payments totaled \$433,484.

Lease receivables are recorded by AEDA at the present value of future lease payments expected to be received from the lessee during the lease term, reduced by any provision for estimated uncollectible amounts. Lease receivables are subsequently reduced over the life of the lease as cash is received in the applicable reporting period. The present value of future lease payments to be received are discounted based on prevailing market rates as of June 30, 2023, for discounting cash flows based on a 100% cash allocation. Prevailing markets rates are based on expected returns for cash based on a survey of expert forecasts for the yields on 3-Month Treasury Bills over the next 10 years published by Blue Chip Financial Forecasts and longer-term forecasts published by the Congressional Budget Office. Lease receivables are measured at discount rates between 1.7% and 8.25%.

NOTE 13 – LEASES, cont.

A. Lease Receivables, cont.

The following schedule details future minimum payments to be received by year as of June 30, 2023:

Year Ending June 30	Governmental Activities	
	Principal	Interest
2024	\$ 51,124	\$ 8,833
2025	57,114	7,736
2026	60,582	6,668
2027	55,816	5,604
2028	45,267	4,661
2029-2033	163,581	8,704
Total Lease Receivables	<u>\$ 433,484</u>	<u>\$ 42,206</u>

B. Lease Payables

AEDA routinely leases land, buildings and equipment in lieu of purchasing assets. During the current fiscal year, AEDA entered into a five-year lease agreement as a lessee for the use of land as a parking lot for employees and visitors. AEDA is required to make monthly principal and interest payments of \$2,700. As of June 30, 2023, AEDA's governmental activities for lease liabilities totaled \$121,445. Lease obligations are measured at a discount rate of 1.15% and are based on AEDA's estimated prevailing market rates unless the discount rate is known.

The following is a schedule by fiscal year of principal and interest payments due for lease payments as of June 30, 2023:

Fiscal Year Ending June 30	Governmental Activities	
	Principal	Interest
2024	\$ 31,167	\$ 1,233
2025	31,528	872
2026	31,892	508
2027	26,858	142
Total lease liabilities	<u>\$ 121,445</u>	<u>\$ 2,755</u>

NOTE 14 – CONTINGENCIES

Litigations

AEDA evaluated the possibility of pending litigations arising from the normal course of business and concluded that there are no pending lawsuits against the Administration as of June 30, 2023.

NOTE 15 – SUBSEQUENT EVENTS

AEDA has evaluated all transactions occurring after the statement of net position as of June 30, 2023, for items that should potentially be recognized or disclosed in the financial statements. The evaluation was conducted through May 15, 2024, the date the accompanying financial statements were available to be issued. No subsequent events occurred that need to be disclosed.
