INDEPENDENT AUDITORS' REPORT

To the Board of Directors
**Compañía para el Desarrollo Integral
de la Península de Cantera**
San Juan, Puerto Rico

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Compañía para el Desarrollo Integral de la Península de Cantera (the Company) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Company's basic financial statements as listed in the table of contents..

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Compañía para el Desarrollo Integral de la Península de Cantera as of June 30, 2021, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Emphasis of Matters

As discussed in Note 1, the basic financial statements of the Company are intended to present the financial position, and the changes in financial position of only that portion of the Governmental Activities attributable to the transactions of the Company. Accordingly, they do not purport to, and do not, present fairly the financial position of the Commonwealth of Puerto Rico as of June 30, 2021, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Notes 5 and 10 to the financial statements, the receivable from Government (Commonwealth of Puerto Rico), amounted to \$55,734,914, consists of appropriations receivable from the Public Improvement Fund and from General Expenditures Budget of the Commonwealth of Puerto Rico, to repay the outstanding balances of the Lines of Credit with the Government Development Bank, amounted to \$55,734,914, as of June 30, 2021. The balance includes the outstanding principal amounted to \$37,791,088 and accrued interests of \$17,943,826. During the year ended June 30, 2021 no additional contributions were received from the Commonwealth of Puerto Rico, however interest due to the Government Development Bank has continued to be accumulated. No transactions related to defaults by the Commonwealth of Puerto Rico have been recognized by the Company through June 30, 2021. Our opinion is not modified with respect to this matters.

Uncertainty

As discussed in Note 1 to the financial statements, one of the most significant revenues the Company receives consists of legislative appropriations from the Commonwealth of Puerto Rico. As a result, the Company's operations are dependent on the Commonwealth of Puerto Rico's ability to continue providing funding to the Company through legislative appropriations. For many years, the Commonwealth of Puerto Rico was facing a fiscal, economic and liquidity crisis, which resulted in significant governmental deficits, an economic recession, liquidity challenges, and high levels of debt and pension obligations. In addition, the Financial Oversight and Management Board for Puerto Rico approved and certified its own fiscal plan for the government. This fiscal plan contains several structural and fiscal reforms directed to improve the trajectory of the economy, drive growth, increase revenues and decrease expenditures. The final outcome of these measures on the Company's operations is uncertain. Our opinion is not modified with respect to this matter.

Restatement of Prior Year Financial Statements

As discussed in Note 12, to the financial statements, the Company's financial statements for the year ended June 30, 2020 have been restated to adjust the balance of earned and unearned revenues. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 7 and 28, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Other Matters (Continued)

Required Supplementary Information (Continued)

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FOR THE YEAR ENDED JUNE 30, 2021

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED):

Statement of Net Position - The Statement of Net Position presents the difference between assets, deferred outflow of resources (if any), liabilities and deferred inflow of resources (if any) in government-wide statements. Net position is reported in three (3) categories:

Statement of Activities

The Statement of Activity demonstrates the degree to which the direct expenses of a given function are offset by program revenues. The Statement of Activities reports revenues and expenses in a format that focus on the net cost of each function or program of the Company. Both the gross and net cost of the function / program, which is otherwise being supported by the general government revenues, is compared to the revenues generated directly by the function. This Statement reduces gross expenses, including depreciation, by related program revenues, operating grants and contributions.

Governmental Funds Financial Statements

The following are the major governmental fund types presented in the financial statements as of and for the year ended June 30, 2021:

General Fund - This fund includes the financial resources which relate to the general operations of the Company. These operations consist of the general administration and other activities not accounted for in other funds.

Federal Fund - The Company participates in a number of Federal Financial Assistance Programs funded by the Federal Government that are legally restricted to expenditures for specific purposes in accordance with grant agreements. Expenditures financed by these programs are subject to financial and compliance audits by the appropriate grantors.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

 Net Position	 <u>\$ 8,975,360</u>	 <u>\$ 9,367,022</u>	 <u>\$ 391,662</u>

Governmental entities are required by U.S. Generally Accepted Accounting Principles (U.S. GAAP), as prescribed by the Governmental Accounting Standard Board (GASB), to report on their net position. The statement of net position presents the value of all of the Company's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between them reported as net position.

Net position may serve over time as a useful indicator of a government's financial position. Total assets and total liabilities of the Company as of June 30, 2021 and 2020, amounted to \$66,310,454 and \$63,851,555, respectively, for a net position of \$8,975,360 and \$9,367,022 as of June 30, 2021 and 2020, respectively.

The increase in total assets and liabilities is mostly related to increase in accounts receivable from Commonwealth of Puerto Rico and the increase in the related note payable by \$2,645,376, regarding the contributions receivable for the repayment of the debt with the Government Development Bank for Puerto Rico.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2021**

1. THE ORGANIZATION AND GOVERNMENTAL ENVIROMENT

Nature of the Organization

Compañía para el Desarrollo Integral de la Península de Cantera (the Company) is a public corporation and governmental instrumentality of the Commonwealth of Puerto Rico (the Commonwealth) created on July 10, 1992 pursuant to Act. No. 20. The Company will exist during a period of 20 years with, if granted by an executive order of the Governor of Puerto Rico, an extension of 5 additional years. The Company was created to establish and implement a comprehensive development plan for the Península de Cantera area. Its main function is to supervise and coordinate governmental efforts and also promote and manage private sector initiatives for the improvements and rehabilitation of the aforementioned area. Under the entity concept, the Company is a component unit of the Commonwealth's financial statements. On April 4, 2013, effective and from July 10, 2013, the Governor of Puerto Rico issued an executive order extending the life of the Company for three years. On July 5, 2013 was signed Law No. 53-2013 which amends Act No. 20 of 1992. This Law extends the life of the Company for a period of 20 years until 2033.

Sources of Revenues and Funding

Governmental Funds - The Company receives substantially its revenues from Legislative appropriations, other Commonwealth of Puerto Rico governments / agencies, Municipality of San Juan, and contributions from other organizations. During the year ended June 30, 2021, approximately 82% of the total revenues were recognized from Legislative (\$592,000) and Municipality (\$200,000) appropriations. Of this Legislative appropriation, 63% (\$2,645,376) consists of accrued appropriations from the Public Improvements Fund of the Commonwealth of Puerto Rico to match the repay requirement of the outstanding balances of the notes and lines of credit with the Government Development Bank for Puerto Rico.

Functions and Programs Description

Management and Support - The management and support program are used to account for resources and expenditures related to providing the coordination and execution of the overall administration. These are mainly composed of expenditures related to salaries, wages, and fringe benefits.

Improvement and Development Costs - This program is used to account for resources and expenditures related to the implementation and development plans for the improvements and rehabilitation of Península de Cantera area.

Other Program Expenses - This program is used to account for resources and expenditures related to community and educational activities, consultants administrative fees, utilities, supplies and printing, storage costs, trainings and seminars, repairs and maintenance, and other general and administrative expenses.

Depreciation - This program is used to account for depreciation expense of capital assets.

Interest on Notes Payable - This program is used to account for resources and expenditures related to accrued interest during the year on Notes Payable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Functions and Programs Description (Continued)

The accompanying basic financial statements of the Company have been prepared in conformity with accounting principles generally accepted (GAAP) in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). In June 1999, the GASB issued Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments (GASB No. 34). This statement establishes financial reporting requirements for state and local government. The Company adopted the provisions of GASB No. 34 as well as other statements referred to below as of July 1, 2020. They require information and restructure much of the information that governmental entities have presented in the past. Comparability with reports issued in prior years is affected. With the implementation of GASB No. 34 the Company has prepared required supplemental information titled Management Discussion and Analysis, which precedes the basic financial statements.

Basis of Presentation

Government-Wide Financial Statements

The Government-Wide financial statements include the Statement of Net Position and the Statement of Activities and display information of all the activities of the Company as a whole. The Administration's activities are considered governmental-type

Statement of Net Position - The Statement of Net Position presents the difference between assets, deferred outflow of resources (if any), liabilities and deferred inflow of resources (if any) in government-wide statements. Net position is reported in three (3) categories:

Invested in Capital Assets – This consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of debt that are attributed to the acquisition, construction, or improvement of those assets, if any.

Restricted net position – Results when constraints placed on net position use are externally imposed by grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This consists of amounts which do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Statement of Activities

The Statement of Activity demonstrates the degree to which the direct expenses of a given function are offset by program revenues. The Statement of Activities reports revenues and expenses in a format that focus on the net cost of each function or program of the Company. Both the gross and net cost of the function / program, which is otherwise being supported by the general government revenues, is compared to the revenues generated directly by the function. This Statement reduces gross expenses, including depreciation, by related program revenues, operating grants and contributions.

Fund Financial Statements

The accounts of the Company are organized on the basis of governmental funds. Each fund is accounted for by a separate set of self-balancing accounts that comprises its assets, liabilities, fund balance, revenues and expenditures. Fund financial statements report detailed information about the Company's current financial resources. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Major funds are determined based on a minimum criterion, that is, a percentage of the assets and deferred outflows; liabilities and deferred inflows; revenues or expenditures or based on the Company's official's criteria if the fund is particularly important to financial statement users. Each major fund is presented in a separate column. The non-major funds are combined in a single column (Other Governmental Funds) in the fund financial statements column, except for those governmental non-major funds, which management has elected to present separately in the financial statements.

Governmental Funds

The following are the major governmental fund types presented in the financial statements as of and for the year ended June 30, 2021:

General Fund - This fund includes the financial resources which relate to the general operations of the Company. These operations consist of the general administration and other activities not accounted for in other funds.

Federal Fund - The Company participates in a number of Federal Financial Assistance Programs funded by the Federal Government that are legally restricted to expenditures for specific purposes in accordance with grant agreements. Expenditures financed by these programs are subject to financial and compliance audits by the appropriate grantors.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Fund balances for each governmental fund are displayed, when applicable, in the following classifications depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable - Represents amounts that cannot be spent because they are either not in a spendable form (such as inventories and prepaid amounts) or are legally or contractually required to be maintained intact.

Restricted - Represents amounts that can be spent only for specific purposes because of constraints imposed by external providers (such as grantors, and higher levels of government), or imposed by constitutional provisions or enabling legislation.

Committed - Represents amounts that can be spent only for specific purposes determined by a formal action of the Company's highest level of decision-making authority (the Board of Directors).

Assigned - Represents amounts the Organization intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed.

Unassigned - This classification represents General fund balance that has not been assigned to other funds, and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured in the financial statements, while basis of accounting refers to the timing in which transactions are recognized in the operating statements. The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This approach differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The governmental funds use a current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., when they become both measurable and available. Measurable means that the amount of the transaction can be determined or reasonably estimated or in a soon enough period after the balance sheet date to pay current budget period expenditures while available means collectible within the current period. For this purpose, the Company considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related funds liability is incurred, and that the liability will be liquidated with expendable available financial resources.

Encumbrances

Encumbrances accounting is provided to record the appropriation from available resources in the governmental funds of purchase orders and contracts for which goods and/or services have not been received. Under GAAP, encumbrances outstanding at year-end do not constitute expenditures or liabilities since the commitments will be honored during subsequent year(s). Encumbrances constitute the equivalent of expenditures for budgetary purposes.

Due From Grantors and Accounts Receivables

Due from grantors is considered collectible accordingly; no provision for doubtful accounts has been established for this receivable balance. Substantially, the amounts owed by the grantors are related to reimbursements of expenditures.

In the ordinary course of business, the Company advanced or made payments on behalf of Apoyo Empresarial para la Península de Cantera, Inc. (a related party). As of June 30, 2021, the net balance of this account receivable amounted to \$972,821. Due to the uncertainty of the collection of this receivable, the Company established a 100% provision for doubtful account for this receivable.

Due From / To Other Fund

Due from / to other fund (interfund) at June 30, 2021 consists of advances made by the General Fund to the Federal Program Fund for the payment of program expenditures. These advances are subsequently returned to the General Fund.

Capital Assets

The Company defines capital assets, which include land, building, furniture and fixtures and equipment, as assets with an initial, individual cost of \$500 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Building	10 years
Equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years
Leasehold improvements	5 years

Capital assets used in the governmental operations are accounted for in the government-wide statement of net position, rather than in the governmental funds. When capital assets are purchased, they are recorded as expenditures in the governmental funds.

Compensated Absences

Employees are allowed to accrue monthly 1.25 days for vacation and 1.0 day for sick leave with a limit, not to exceed 60 days for vacation and 90 days for sick leave. Vacation and sick leave were recorded as benefits when earned. All vacation pay is accrued when incurred in the government-wide financial statements. For the government-wide statements, the current portion is the amount estimated to be used in the following year. For governmental fund's statements, all the compensated absences are considered long-term and therefore, are not a fund liability and represent a reconciling item between fund level and government-wide presentations.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results could differ from those estimates.

Unearned Revenue

Unearned revenue at the governmental fund level arises when potential revenue does not meet the "available" criteria for revenue recognition in the current period. Unearned revenue also arises when resources are received before the Organization has a legal claim to them, as when grant moneys are received prior to incurring the qualifying expenditures. In subsequent periods, when the revenue recognition criteria is met, or when the Organization has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet, and the revenue is recognized.

Future Adoption of Accounting Pronouncements

The GASB has issued the following accounting pronouncements that will or may have future impact on the accounting and financial practices of the Company.

GASB Statement No. 87, “Leases”. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

GASB Statement No. 89, “Accounting for Interest Cost Incurred before the End of a Construction Period”. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged. The requirements of this Statement should be applied prospectively.

GASB Statement No. 91, “Conduit Debt Obligations”. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations and improving required note disclosures. Statement 91 is effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

GASB Statement No. 92, - “Omnibus 2020”. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.

Management is evaluating the applicability and impact that these Statements will have on the Company's basic financial statements.

Notes to Financial Statements

The notes to financial statements provide information that is essential to a user's understanding of the basic financial statements.

Required Supplementary Information

Required supplementary information consists of the Budgetary Comparison Schedule – General Fund as required by GASB.

3. CASH AND CONCENTRATION OF RISK

The Company is authorized to deposit funds in the custody of financial institutions approved by the Commonwealth. Commonwealth's regulations require domestic commercial banks to maintain collateral securities pledged for the security of public deposits at an amount in excess of federal insurance coverage. Deposits, either insured or collateralized, are not considered to be subject to custodial credit risk. Custodial credit risk is the risk that, in the event of a failure of the counterparty to the transaction, the Company may not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

Compañía para el Desarrollo Integral de la Península de Cantera maintains its cash accounts in higher rated commercial banks located in Puerto Rico. Commercial bank accounts are insured by the Federal Deposit Insurance Company (FDIC). As of June 30, 2021, the Company's cash in commercial banks, excluding cash on hand of \$500, consist of the following: Commercial Bank – Carrying or Book Balance Amount \$1,716,427, Depository Bank Balance Amount \$1,745,896.

4. RISK FINANCING

The Company is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Company has purchased commercial insurance for these claims. The coverage for the Company consists of professional, public responsibility, property and theft, auto and fidelity bond coverage for administration officers and directors. Workers compensation insurance is paid to the State Insurance Fund Corporation.

5. DUE FROM COMMONWEALTH OF PUERTO RICO

As discussed in Note 10 to the financial statements, the Company entered into a two Lines of Credit Agreements (the Loan Agreements) with the Government Development Bank for Puerto Rico (GDB). Outstanding principal amount, including accrued interest, shall be payable from annual appropriations from the Public Improvements Funds and the General Expenditures Budget of the Commonwealth of Puerto Rico.

As of June 30, 2021, outstanding principal amount and accrued interests (P&I), equivalent to the appropriations receivable from the Commonwealth of Puerto Rico, are as follows:

	Beginning Balance (P&I)	Additions (Interests)	Repayments	Ending Balance (P&I)
\$38 million line of credit	\$ 12,391,396	\$ 615,791	\$ -	\$ 13,007,187
\$40 million line of credit	<u>40,698,142</u>	<u>2,029,585</u>	<u>-</u>	<u>42,727,727</u>
Total	<u>\$ 53,089,538</u>	<u>\$ 2,645,376</u>	<u>\$ -</u>	<u>\$ 55,734,914</u>

According to the Fiscal Agency and Financial Advisory Authority (“AAFAF”, for its Spanish acronym), the two loans from Peninsula Cantera were identified as Retained Loans as part of the GDB Qualifying Modification and are being retained by GDB. The GDB Retained Loans consisted of certain loans designated to be retained and continued to be serviced by the GDB pursuant to the GDB Qualifying Modification, but which beneficial interests and proceeds would be transferred from time to time by the Bank to the Debt Recovery Authority (DRA). No collections on principal and interest or settlement transaction have occurred on the above loans since the Closing Date of the Qualifying Modification. Although, these loans are being accounted for as nonaccrual loans, interest will continue to accumulate until transfer to the DRA.

Furthermore, according to the AAFAF, it is their understanding that the Commonwealth Budget has not included appropriations to pay GDB loans in the last several years. Also, as result of the Commonwealth Plan of Adjustment discharge and prevention provisions, there will not be future appropriations related to loans that were to be paid from legislative appropriations.

6. NOTES RECEIVABLE

Related Party

Effective on July 5, 2007 the Company subscribed a promissory note in the amount of \$5,711,935 due from a related party, Peninsula Housing Investment Associates, SE (the Partnership), to formalize the outstanding balances of receivables and accrued interests. The note shall be collected in an installment, not later than July 12, 2032. The note bears interest at .5% per annum compounded semi-annually and the accrued interest shall be paid by the Partnership within seventy-five (75) days of the close of each calendar year. In connection with the transaction the Company entered into a Deed of Second Mortgage with the Partnership, to create a mortgage on the Partnership’s property to guaranteed and secure the full and complete payment of the principal and interests on note. As of June 30, 2021, the balance of the note amounted to \$5,305,758, including accrued interests amounting to \$250,198.

7. RELATED PARTIES

Apoyo Empresarial para la Península de Cantera, Inc. (Apoyo), a not-for-profit corporation incorporated in April 1992, is dedicated to promoting programs and projects to improve the quality of life of the Península de Cantera area. Its main function is to bring resources, support and funding available to it and will complement the work of the Company regarding this area.

Península Housing Investment Associates, SE (the Partnership) is a limited partnership organized on December 15, 1998 as a real estate development partnership to develop and manage a low-income housing tax credit development located in San Juan, Puerto Rico, known as Parque Victoria (the "Project"). The Project consists of six multi-story building containing one hundred two (102) residential apartment units and provides affordable housing to eligible low-income tenants. The units are rented to residents of the area where the Project is located. Costs incurred for the development and construction of the housing project have been financed principally through advances from the Company. On December 20, 2001, the Company entered into an agreement with the Partnership to make advances from time to time in aggregate amount not to exceed \$11.5 million.

Approximately \$9 million of this loan will be repaid from capital contributions to be made by limited investors once the construction of the project is completed and certain conditions are met. The remaining balance of the loan, (expected to reach approximately \$2.5 million at project completion) plus accrued interest at the rate of one half percent (.005) per year starting January 1, 2002, shall be payable in one installment thirty years from the date of receipt of a certificate of occupancy from the Regulations and Permits Administration, but in no event, later than December 31, 2032. This loan is also secured by a mortgage over the rental units.

The original partners of the entity were Península Housing, Inc. (the Managing Partner), a corporation organized under the laws of the Commonwealth of Puerto Rico (with .01% ownership), as managing general partner and Apoyo as limited partner (with 99.99% ownership). The Company's actual Executive Director is also the President of the Board of Director of the Managing Partner.

9. PROPERTY HELD FOR DEVELOPMENT AND REHABILITATION (CONTINUED)

Both the land and the housing units were acquired during the years 2010 to 2015. The valuation and acquisition cost were documented with a series of deeds corresponding to the sale of housing units and land in order to provide appropriate housing space for neighbors affected by projects that require relocation in the neighborhoods of the Península de Cantera, as part of the rehabilitation projects.

10. NOTES PAYABLE / LONG-TERM DEBTS

Lines of Credit Agreements with GDB

On December 26, 2000, the Company entered into a Non-Revolving Line of Credit Agreement (the Loan Agreement) with the Government Development Bank for Puerto Rico (GDB, the Lender), as authorized by the Joint Resolution No. 20 approved on February 16, 2000 by the Legislature of the Commonwealth of Puerto Rico, to finance the development and construction of low cost residential housing projects at the Península de Cantera area. The Loan Agreement provides for borrowings through June 30, 2040 (the Maturity Date) up to an amount of \$38,000,000, the maximum amount of borrowings that may be outstanding under the Loan Agreement. As of June 30, 2021, the amount due amounted to \$12,391,396 and composed of principal and accrued interest amounting to \$8,797,014 and \$3,594,382, respectively.

On October 12, 2004, the Legislature of the Commonwealth of Puerto Rico approved a Joint Resolution No. 2199 to authorize the Company to incur in obligations in an amount not to exceed \$40,000,000 for the payments of costs incurred or to be incurred for the permanent improvements projects in the communities and sectors that constitute the Community of the Cantera Península. As a result, the Company entered into an additional non-revolving line of credit agreement with the lender. The Loan Agreement provides for borrowings through June 30, 2040 (the Maturity Date) up to a maximum amount of \$40,000,000. As of June 30, 2021, the amount due amounted to \$40,698,142 and composed of principal and accrued interest amounting to \$28,994,074 and \$11,704,068, respectively.

Under both agreements, borrowings bear interest at a variable rate and will be repaid, including the outstanding balance of borrowings, from appropriations from the Public Improvements Fund of the Commonwealth of Puerto Rico and as agreed by the Lender and the Office of Management Budget. The interest rate was 7% during the year ended June 30, 2021.

See Note 5 to the financial statements for more detail and information regarding to these lines of credit.

11. CONTRIBUTED CAPITAL

The Company received grants from the Commonwealth of Puerto Rico for the development of low cost residential housing projects in the area known as Península de Cantera, San Juan, Puerto Rico. The grants were in cash (\$2,000,000) and various tracts of land (\$591,890). The Company did not consider practical to perform an appraisal of the land. The land value was estimated at \$15.52/square meter based on a potential transaction for real estate in a tract of land close to the site of the donated land. Approximately \$589,000 of the funds received were used to complete the "Centro Comunitario" including the acquisition of office equipment and perform other payments. After carrying out the development of residential housing projects, a tract of land with an estimated value of \$ 497,338 has remained available.

This amount will be reimbursed from future unrestricted funds.

12. PRIOR PERIOD ADJUSTMENT

As of June 30, 2020, the balance of Company's net position have been adjusted by \$60,638 in order to account for the following transaction:

Net position, at beginning of year, as previously reported	\$ 9,306,384
Prior period adjustment:	
Revenues and unearned revenues adjustments	<u>60,638</u>
Net position, at beginning of year, as restated	<u>\$ 9,367,022</u>

13. CONTINGENCY AND UNCERTAINTY

Federal and State Awards

In the normal course of operations, the Company receives grants from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

13. CONTINGENCY AND UNCERTAINTY (CONTINUED)

Uncertainty

As discussed in Note 1 to the financial statements, one of the most significant revenues the Company receives consists of legislative appropriations from the Commonwealth of Puerto Rico. As a result, the Company's operations are dependent on the Commonwealth of Puerto Rico's ability to continue providing funding to the Company through legislative appropriations. For many years, the Commonwealth of Puerto Rico was facing a fiscal, economic and liquidity crisis, which resulted in significant governmental deficits, an economic recession, liquidity challenges, and high levels of debt and pension obligations. In addition, the Financial Oversight and Management Board for Puerto Rico approved and certified its own fiscal plan for the government. This fiscal plan contains several structural and fiscal reforms directed to improve the trajectory of the economy, drive growth, increase revenues and decrease expenditures. The final outcome of these measures on the Company's operations is uncertain.

14. SUBSEQUENT EVENTS

Financial Statements

Management of Company has evaluated subsequent event through March 30, 2023, the date which the financial statements were available to be issued.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE – GENERAL FUND

FOR THE YEAR ENDED JUNE 30, 2021

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Control

The Budgetary Comparison Schedule - General Fund only presents the information for the general fund for which there is a legally adopted budget, as required by GAAP. It presents comparisons of the legally adopted budget with actual data on a budgetary basis. The Organization's budget is prepared for the General Fund following state requirements. The Company includes, as part of its original and final budget, the appropriations of funds from the Legislature of the Commonwealth of Puerto Rico and the Municipality of San Juan, as stipulated in Act No. 20 of July 10, 1992, as amended. The budget is prepared on a budgetary (statutory) basis of accounting which is different from GAAP. Revenues include amounts classified by GAAP as other financing sources, whether they exist during the year, and are generally recognized when cash is received. Expenditures include encumbrances and amounts classified by GAAP as other financing uses, whether they exist during the year, and are generally recorded when the related expenditure is incurred or encumbered. Unencumbered appropriations lapse at year end.

On a GAAP basis, encumbrances outstanding at year end are reported in the governmental funds as a designation of fund balance since they do not constitute expenditures or liabilities, while on a budgetary basis encumbrances are recorded as expenditures of the current year. On the other hand, under the statutory basis of accounting, the Organization uses encumbrance accounting to record the full amount of purchase orders, contracts, and other commitments of appropriated resources as deductions from the appropriation prior to actual expenditure. In the governmental funds, encumbrance accounting is a significant aspect of budgetary control.

The presentation of the budgetary data excludes long-term obligations such as compensated absences and depreciation charges for capital assets. Historically, those obligations have been budgeted on a pay-as-you-go basis. Because accounting principles applied for purposes of developing data on a budgetary basis differ from those used to present financial statements in conformity with GAAP, a reconciliation of entity, timing, and basis differences in the excess (deficiency) of revenue and other financing sources over (under) expenditures and other financing uses for the year ended June 30, 2021 is presented below for the general fund:

Excess of revenues over expenditures from the budgetary comparison schedule	\$ 60,806
Differences – Budget to GAAP	<u> -</u>
Excess of revenues over expenditures in the Statement of Revenues, Expenditures and Changes in Fund Balance – General Fund	<u>\$ 60,806</u>
