INTRODUCTION

Hacienda has been compiling financial information from selected public corporations of the Commonwealth of Puerto Rico that are component units (“CU”) for financial reporting purposes, as part of Hacienda’s evaluation of the liquidity of the Government of Puerto Rico and its public corporations.

This report is for the fourth quarter of fiscal year 2024 (“Q4-24”) and presents information with respect to 15 selected CUs. Fiscal Year 2024 (“FY24”) Liquidity Plans for 15 CUs were completed and submitted to the team from FOMB in September 2023. These Liquidity Plans are the ones used in this report.

11 of the 15 CUs have reported actual cash flow information through the month of June 2024 (“Jun-24”). Section “A” of this report for each CU provides Year-to-date, (“YTD”) actual information. Analysis in section “A” includes details on actual receipts and expenses through Q4-24.

The actual results contain cash receipts, cash disbursements, and CapEx. Cash receipts include revenues collected from operations; intergovernmental receipts – general fund appropriations and other transfers from Central Government, municipalities, and public corporations; disaster relief receipts – federal emergency funds, insurance proceeds related to Hurricanes Irma and Maria, and other federal funds. Cash disbursements include operating payments – e.g., payroll and related costs, PayGo charges, purchased services, professional services, transportation expenses, and disaster relief disbursements – e.g., expenditures related to the damages caused from Hurricanes Irma and Maria.

The CUs are also expected to report monthly headcount figures to monitor changes in staff levels and their actual and projected effects on payroll costs. The trailing twelve months of information is presented in the document under section “B” for each CU.

A Full Year (“FY24”) Sources and Uses of Funds is provided to allow readers to bridge the beginning cash balance as of July 3, 2023, to the expected ending cash balance as of June 28, 2024. This information is presented in the document under section “C” for each CU.

This report also contains pertinent working capital information. Where available, the CUs have provided quarterly information on Accounts Payable (“A/P”) and Accounts Receivable (“A/R”). **Figures are unaudited and subject to change.** This information is presented in the document under section “D” for each CU.

The report contains two Appendix items. The first of these (Appendix A) is a cash reconciliation between CU’s reported cash account balances and the figures in the cash flows in this report. The “Summary of Bank Account Balances for the Government of Puerto Rico and its Instrumentalities,” was released as of June 30, 2024. The second Appendix (Appendix B) item is a consolidated view of CU headcount and payroll information, which is based on information provided by CU management.

EXECUTIVE SUMMARY

Component Units Actual Results for the Month of June 2024

(figures in \$000's)

Component Units	FY24 Actual YTD	FY24 LP YTD	YTD Variance Actual vs. LP
Puerto Rico Ports Authority ("PORTS")	Jan YTD Actual	Jan YTD LP	Actual vs. LP
PORTS Cash Inflow	\$108,454	\$155,459	(\$47,005)
PORTS Cash Outflow	(92,571)	(149,828)	57,258
PORTS Net Cash flow	<u>\$15,884</u>	<u>\$5,630</u>	<u>\$10,253</u>
PORTS Commentary:	Net cash flow vs. Liquidity Plan is \$10.3M favorable mainly driven by the receipt of \$18.0M from FEMA. This was partially offset by adverse operating results of around (\$6.3M), together with disbursements pertaining to past fiscal year of (\$1.4M). Operating results were impacted by lower than expected receipts of income from Airports.		
Medical Services Administration ("ASEM")			
ASEM Cash Inflow	\$213,616	\$220,330	(\$6,714)
ASEM Cash Outflow	(219,584)	(217,960)	(1,624)
ASEM Net Cash flow	<u>(\$5,968)</u>	<u>\$2,370</u>	<u>(\$8,338)</u>
ASEM Commentary:	Unfavorable net cash flow variance vs. Liquidity Plan of (\$8.3M) was mainly driven by an adverse timing of other operating payments including receipts from other institutions that will be collected during the first months of the following fiscal year. This impact of around (\$10.2M) was further enhanced by an adverse timing in all other operating activities of (\$10.1M), and partially offset by a positive timing of CapEx disbursements of around \$12.0M due to unencumbered Capex of approximately \$31.8M.		
Puerto Rico Integrated Transit Authority ("PRITA")	Dec YTD Actual	Dec YTD LP	Actual vs. LP
PRITA Cash Inflow	\$85,844	\$73,263	\$12,582
PRITA Cash Outflow	(85,275)	(70,789)	(14,486)
PRITA Net Cash flow	<u>\$569</u>	<u>\$2,473</u>	<u>(\$1,904)</u>
PRITA Commentary:	Unfavorable net cash flow of (\$1.9M) vs. Liquidity Plan was mainly due to an adverse variance in other operational disbursements mostly driven by special payments pertaining to HMS Ferries not contemplated in the Liquidity Plan.		
Puerto Rico State Insurance Fund Corporation ("FONDO")	May YTD Actual	May YTD LP	Actual vs. LP
FONDO Cash Inflow	819,187	\$598,668	\$220,519
FONDO Cash Outflow	(1,170,413)	(526,248)	(644,165)
FONDO Net Cash flow	<u>(\$351,226)</u>	<u>\$72,420</u>	<u>(\$423,646)</u>
FONDO Commentary:	Unfavorable net cash flow of (\$423.7M) versus Liquidity Plan calls for a transfer to an investment account of (\$700.0M) made in December 2023 and a cash transfer from a restricted account regarding insurance and FEMA proceeds of \$17.0M earmarked for future building repairs. Excluding these items, there would have been a favorability of \$259.3M mainly driven by positive premiums collections of \$203.5M, further enhanced by a lower need of equipment purchases of \$31.8M, and lower claims-related disbursements showing a benefit of \$25.0M, partially offset by an unfavorable timing in all other operating disbursements of (\$1.0M).		
Health Insurance Administration ("ASES")	May YTD Actual	May YTD LP	Actual vs. LP
ASES Cash Inflow	\$3,882,993	\$4,204,460	(\$321,467)
ASES Cash Outflow	(3,890,624)	(4,205,924)	315,300
ASES Net Cash flow	<u>(\$7,631)</u>	<u>(\$1,464)</u>	<u>(\$6,167)</u>
ASES Commentary:	Unfavorable net cash flow of (\$6.2M) versus Liquidity Plan was mostly driven by an adverse timing in Federal Matching Funds and Adm Reimbursements of (\$325.9M). This was partially offset by a favorable variance of \$308.8M of premium payments and a favorable result from all other operating receipts and disbursements of \$10.9M.
