Independent Auditor's Report

Board of Directors
Farm Insurance Corporation of Puerto Rico

Opinion

We have audited the accompanying financial statements of the business-type activity of the Farm Insurance Corporation of Puerto Rico, a component unit of the Commonwealth of Puerto Rico, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Farm Insurance Corporation of Puerto Rico as of June 30, 2022, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Farm Insurance Corporation of Puerto Rico and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Corporación de Seguros Agrícolas de Puerto Rico's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Farm Insurance Corporation of Puerto Rico's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Farm Insurance Corporation of Puerto Rico's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 7, defined benefit retirement and pension plans, and other post-employment benefit schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

NOTES TO FINANCIAL STATEMENTS

NOTE 1- ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION AND REPORTING ENTITY

The Farm Insurance Corporation of Puerto Rico (the Corporation) is an instrumentality of the Commonwealth of Puerto Rico ascribed to the Department of Agriculture (the Department). As a component unit of the Department, the Corporation is also included as part of the Department as reporting entity.

The Corporation was created by Act Number 166 (the Act) of August 11, 1988, to provide insurance to farmers against losses or damages to plantations, crops, animals, birds, and others caused by natural disasters. The Corporation is responsible for its debts and is entitled to surpluses. The Commissioner of Insurance of Puerto Rico has the Corporation to evaluate accrued reserves in order to determine their adequacy and to make recommendations.

The Board of Directors is composed of five members including, the Secretary of the Department of Agriculture (as President), the Dean of the Agricultural Sciences Faculty of the Mayagüez Campus of the University of Puerto Rico, a representative of the Puerto Rico Fiscal Agency and Financial Advisory and two bonafide farmers appointed by Governor with the consent of the Senate of Puerto Rico.

The Board of Directors appoints the Executive Directors of the Corporation, who is responsible for the direct administration of the Corporation in accordance with the policies and procedures established by the Board of Directors.

B. BASIS OF PRESENTATION

The Corporation's financial statements are presented as an enterprise fund and conform to the provisions of Governmental Accounting Standards Board Statement No. 34 ("GASB") "Basic Financial Statements" – and Management's Discussion and Analysis – for State and Local Governments." GASB 34, as amended, establishes standards for external financial reporting for all state and local governmental entities, which includes a statement of net position, a statement of revenue, expense and changes in net position and a statement of cash flows. It requires the classification of net position into three components: net investment in capital assets, restricted, and unrestricted.

These classifications are defined as follows:

- Net Investment in capital assets - Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balance of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- Restricted – Consist of constraints placed on net assets use through external constraints imposed by creditors (such as through covenants), contributors, or law or regulations of other governments or constraints imposed by law through constitutional provision or enabling legislation.
- Unrestricted – This component of net assets consist of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

FARM INSURANCE CORPORATION OF PUERTO RICO
(A COMPONENT UNIT OF THE COMMONWEALTH OF PUERTO RICO)

Because the Corporation is a special-purpose government engaged in business-type activities only, the financial statements are presented in accordance with paragraph 138 of GASB Statement 34 "Basic Financial Statements for State and Local Governments".

C. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The accrual basis of accounting is used by the Corporation. Under the accrual basis, revenues are recognized when earned and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash.

2. Earned premiums

Insurance premiums are recognized as income during the period covered by the policies issued to the farmers. The insurance policies period cover from April 1st to March 31st. The portion corresponding to the next fiscal year is deferred and recognized as earned during that year.

3. Unbilled Receivables

Unbilled receivables represent a management's estimate of the unearned premiums related with the unwritten policies for the period cover from April 1, 2019, to March 31, 2020.

4. Unpaid claims

The liability for unpaid claims consists of the estimated amount of the probable claims of the farmers. The Corporation's management believes that the liability for unpaid claims is adequate to cover the ultimate net costs of losses and claims as of year-end. However, the liability is necessarily based on estimates and no representation is made that the amounts ultimately paid may not be more or less than such estimates as of year-end.

5. Capital Assets

The Corporation's capital assets are recorded at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. The estimated useful lives of property and equipment are as follows:

Motor vehicles	5 years
Computer equipment	5 years
Offices furniture and equipment	5 to 10 years
Other equipment	5 to 10 years

The Corporation periodically reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. No impairment of capital asset was identified during the year ended 2021.

FARM INSURANCE CORPORATION OF PUERTO RICO
(A COMPONENT UNIT OF THE COMMONWEALTH OF PUERTO RICO)

6. Compensated absences

Vacation and sick leave may be accumulated at a maximum of 60 days and 90 days, respectively. Employees earned 15 days of vacation and 18 days of sick leave, annually, until April 28, 2017. Effective April 29, 2017, when Act No.26 became effective, all employees in each calendar year, will earn up a maximum of 15 and 12 days of vacation and sick leave, respectively.

7. Accounting for pension costs

The Corporation accounts for pension costs under the provisions of GASB Statement No. 73 Accounting and Financial Reporting for Pensions and Related Assets That are not Within the Scope of GASB Statement No. 68 and Amendments to Certain Provisions of GASB Statements 67 and 68 that requires that employers report a net pension liability and related pension accounts. For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pension, pension expense, the balances have been determined on the same basis as reported by the Plan.

8. Deferred Outflows/Inflows

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. In the statement of net position deferred outflows/inflows of resources arise as result of the transactions recorded as part of the GASB Statement No. 73 Accounting and Financial Reporting for Pensions and Related Assets That are not Within the Scope of GASB Statement No. 68 and Amendments to Certain Provisions of GASB Statements 67 and 68.

9. Statement of Cash Flows

The accompanying statement of cash flows is presented in accordance with the provisions of GASB Statement No. 9, as amended, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that Use Proprietary Fund Accounting". For purposes of reporting cash flows, cash includes cash on hand, amounts due from banks, and items in process of collection.

10. Operating Revenues and Expenses

Operating revenues and expenses arise from the sale of insurance to farmers and the services provided to them, as well as all revenues and expenses not related to capital and related financing activities.

11. Risk management

The Corporation is exposed to various risks of loss from torts, theft of, damage to, and destruction of assets, business interruption, errors and omissions, employee injuries and illnesses, natural disasters, and other losses. The commercial insurance coverage is Negotiated by the Department of Treasury of the Commonwealth of Puerto Rico and the cost is paid by the Corporation.

FARM INSURANCE CORPORATION OF PUERTO RICO
(A COMPONENT UNIT OF THE COMMONWEALTH OF PUERTO RICO)

12. Accrual for legal claims

The estimate amount of the liability for legal claims is recorded on the accompanying statements of net position based on the Corporation evaluation of the probability of an unfavorable outcome in the litigation of such legal claims. The Corporation consults with its legal counsel upon determining whether an unfavorable outcome is expected. Because of uncertainties inherent in the estimation process, management's estimate of the liability for legal claims may change in the near term.

13. Future adoption of accounting pronouncements

The GASB has issued the following standards that have effective dates after June 30, 2022:

- GASB Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (i) commitments extended by issuers, (ii) arrangements associated with conduit debt obligations, and (iii) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.

This Statement also addresses arrangements - often characterized as leases - that are associated with conduit debt obligations. In those arrangements, capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by third-party obligors in the course of their activities. Payments from third-party obligors are intended to cover and coincide with debt service payments. During those arrangements, issuers retain the titles to the capital assets. Those titles may or may not pass to the obligors at the end of the arrangements.

This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

- GASB Statement No. 93, Replacement of Interbank Offered Rates (IBOR). The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an IBOR most notably the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate.

This statement achieves its objective by:

- Providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment.
- Clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate.
- Clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable.
- Removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap.

FARM INSURANCE CORPORATION OF PUERTO RICO
(A COMPONENT UNIT OF THE COMMONWEALTH OF PUERTO RICO)

- Identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap.
- Clarifying the definition of *reference rate*, as it is used in Statement 53, as amended.
- Providing an exception to the lease modifications guidance in Statement 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend.

The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2022. Earlier application is encouraged. The exceptions to the existing provisions for hedge accounting termination and lease modifications in this Statement will reduce the cost of the accounting and financial reporting ramifications of replacing IBORs with other reference rates. The reliability and relevance of reported information will be maintained by requiring that agreements that effectively maintain an existing hedging arrangement continue to be accounted for in the same manner as before the replacement of a reference rate. As a result, this Statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR.

- GASB Statement No. 94, Public Private and Public-Public Partnership and Availability Payment Arrangement. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

- GASB Statement No. 96, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

- GASB Statement No. 99, Omnibus 2022. This Statement establishes or amends accounting and financial reporting requirements for specific issues related to financial guarantees, derivative instruments, leases, public-public and public-private partnerships (PPPs), subscription-based information technology arrangements

(SBITAs), the transition from the London Interbank Offered Rate (LIBOR), the Supplemental Nutrition Assistance Program (SNAP) (formerly, food stamps), nonmonetary transactions, pledges of future revenues, the focus of government-wide financial statements, and terminology. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

- GASB Statement No. 100, Accounting Changes and Error Corrections. This Statement establishes accounting and financial reporting requirements for (a) accounting changes and (b) the correction of an error in previously issued financial statements (error correction). The requirements of this Statement do not apply to the initial application of U.S. generally accepted accounting principles (GAAP) established by the GASB as a financial reporting framework in circumstances in which a government is asserting for the first time that its financial statements are prepared in accordance with U.S. GAAP established by the GASB. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter.
- GASB Statement No. 101, Compensated Absences. This Statement establishes standards of accounting and financial reporting for (a) compensated absences and (b) associated salary-related payments, including certain defined contribution pensions and defined contribution other postemployment benefits (OPEB). The requirements of this Statement apply to the financial statements of all state and local governments. This Statement does not apply to benefits that are within the scope of Statement No. 47, Accounting for Termination Benefits, as amended. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter.

The Board considered the effective dates for the requirements of this Statement in light of the COVID-19 pandemic and in concert with Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance.

Management is evaluating the impact that these statements will have on the Corporation basic financial statements.

The Corporation's management has concluded that the adoption of these statements will not have a significant impact on the Corporation's financial statements.

NOTE 2 – CUSTODIAL CREDIT RISK - DEPOSITS

Custodial credit risk is the risk that, in the event of a bank failure, the Corporation's deposits might not be recovered. The Corporation maintains all cash deposits in commercial banks located in Puerto Rico.

Under the Government of Puerto Rico statutes, public funds deposited in commercial banks must be fully collateralized for the amount deposited in excess of federal depository insurance. All securities pledged as collateral are held by the Secretary of Treasury of Puerto Rico in the Corporation's name. At year-end the Corporation's bank balance in commercial banks amounts to \$10,584,643.

The Corporation established, in accordance with the requirements of the Federal Crop Insurance Corporation (FCIC), separate bank accounts dedicated solely to the federally reinsured crop insurance program. For the fiscal year ended June 30, 2022, the Corporation deposits all producer-paid premium, reinsurance recoveries, and FCIC paid premium subsidy in the accounts and pays all crop insurance losses and reinsurance premium from the accounts. Additionally, the Corporation must not commingle other funds not related to the federal crop insurance program.

NOTE 5- PENSION PLAN

Plan Description

Before July 1, 2017, the Corporation was a participating employer in the retirement plans administered by the Employee's Retirement System of the Government of Puerto Rico and its Instrumentalities (ERS). The ERS covered employees of certain public corporation not having their own retirement systems (including the Corporation), employees of the Fire and Police Departments of Puerto Rico, all regular full-time public employees working for the executive and legislative branches of the Commonwealth, and the municipalities of Puerto Rico.

On August 23, 2017, the Governor signed into law Act No. 106-2017, known as the "Act to Guarantee the Payments to our Pensioners and Establish a New Plan of Defined Contributions for Public Employees" that approved a substantial pension reform for all of the Commonwealth's retirement systems. This reform modified most of the Retirement System's activities, eliminated the employer contribution, created legal framework to implement a pay-as-you-go (PayGo) system, and required the Commonwealth's retirement systems to liquidate substantially all of their assets and to transfer the proceeds from such liquidation to the Commonwealth for the payment of pension benefits. Under the PayGo system, the Commonwealth's General Fund makes direct payments to the pensioners and then gets reimbursed for those payments by the applicable employers.

Act 106-217 also created a new defined contribution plan (the New Defined Contribution Plan) for existing active members and new employee hired on or after July 1, 2017. This plan is similar to a 401(k) and is managed by a private entity. Future benefits will not be paid by the ERS. Under the New Defined Contribution Plan, members of the prior programs and new

FARM INSURANCE CORPORATION OF PUERTO RICO
(A COMPONENT UNIT OF THE COMMONWEALTH OF PUERTO RICO)

government employees hired on and after July 1, 2017 will be enrolled in the New Defined Contributions Program. As of June 22, 2020, the accumulated balance on these accounts of the prior pension programs were transferred to the individual member accounts in the New Defined Contribution Plan.

Prior to July 1, 2013 the system operated under the following benefits structures:

- Act No. 447 of May 15, 1951 (Act No. 447) effective on January 1, 1952, for members hired up to March 31, 1990,
- Act No. 1 of February 16, 1990 (Act No. 1) for members hired on or after April 1, 1990 and ending on or before December 31, 1999,
- Act No. 305 of September 24, 1999, (Act No. 305), which amended Act No. 447 and Act No. 1, for members hired from January 1, 2000, up to June 3, 2013.

Employees under Act No. 447 and Act No. 1 are participants of a cost-sharing multiple employers defined benefit plan. Act No. 305 members are participants under a pension program known as System 2000, a hybrid defined contribution plan. Under System 2000 there was a pool of pension assets invested by the ERS, together with those of the current defined benefit plan. Benefits at retirement age were not guaranteed by the Commonwealth and were subjected to the total accumulated balance of the savings account. Effective July 1, 2013, Act No. 3 of 2013 (Act No. 3) amends the provisions of the different benefits structures under the ERS. Act No. 3 moves all participants (employees) under the defined benefit pension plans (Act No. 447 and Act No. 1) and the defined contribution plan (System 2000) to a new defined contribution hybrid plan. Contributions are maintained by each participant in individual accounts. Credits to the individual accounts include (1) contributions by all members of ERS Act No. 447 and Act No. 1 defined benefit pension plans after June 30, 2013; (2) the retirement savings account as of June 30, 2013, of System 2000 participants and, (3) the investment yield for each semester of the fiscal year.

Benefits provided before July 1, 2017

The following summary of the ERS plan provisions is intended to describe the essential features of the plan. All eligibility requirements and benefit amounts should be determined in accordance with the applicable laws and regulations.

Act 106-2017 eliminated the employer contributions to the ERS as of July 1, 2017. Instead, participating employers are responsible for the payment of the PayGo fee to the newly created accumulated pension benefits payment account, which is computed based on the amount of actual benefits paid to retirees, disabled and beneficiaries of each participating employer.

(c) Supplemental Contributions from the Commonwealth, Certain Public Corporations, and Municipalities (Act No. 3-2013): Effective July 1, 2013, ERS received a supplemental contribution of \$2,000 each year for each pensioner (including beneficiaries receiving survivor benefits) that was previously benefitting an Act No. 447-1951 or Act No. 1-1990 member while an active employee. This supplemental contribution was paid by the Commonwealth Fund for former government and certain public corporations without their own treasuries or by certain public corporations with their own treasuries or municipalities for their former employees.

Act 106 of 2017 eliminated the special benefits contribution requirement to the ERS, instead they will be allocated to the new PayGo System through legislative appropriations, as necessary.

(d) Additional Uniform Contribution (Act No. 32-2013, as Amended): The additional uniform contribution (AUG) was to be certified by the external actuary of ERS each fiscal year from fiscal year 2015 through 2033 as necessary to avoid the projected gross assets of ERS, falling below \$1 billion during any subsequent fiscal year. The AUG was to be paid by the Commonwealth, public corporations with their own treasuries, and municipalities. All employers' contributions, including the additional uniform contribution were eliminated effectively on July 1, 2017 by Act 106-2017.

Actuarial methods and assumptions

The actuarial valuation was determined using the following actuarial methods and assumptions:

Discount Rate

The discount rate for June 30, 2021, was 2.16%. This represents the municipal bond return rate as chosen by the Commonwealth. The source is the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality

a) Pre-retirement Mortality

For general employees not covered under Act No. 127, RP-2014 Employee Mortality Rates for males and females adjusted to reflect Mortality Improvement Scale MP-2018 from the 2006 base year and projected forward using MP-2021 on a generational basis. For members covered under Act No. 127, RP-2014 Employee Mortality Rates are assumed with blue collar adjustments for males and adjusted to reflect Mortality Improvement Scale MP-2021 from the 2006 base year and projected forward using MP-2021 on a generational basis. As generational tables, they reflect mortality improvements both before and after the measurement date.

100% of deaths while in active service are assumed to be occupational for members covered under Act 127.

b) Post-retirement Healthy Mortality

Rates which vary by gender are assumed for healthy retirees and beneficiaries based on a study of the Plan's experience from 2013 to 2018 and updated expectations regarding future mortality improvement. The PubG-2010 healthy retiree rates, adjusted by 100% for males and 110% for females, projected using MP-2021 on a generational basis. The base rates are projected using Mortality Improvement Scale MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

c) Post-retirement Disabled Mortality

For periods after the retiree death, the PubG-2010(B) continent survivor rates, adjusted by 110% for males and 120% for females, projected using MP-2021 on a generational basis. As the generational table, it reflects mortality improvements both before and after the measurement date.

NOTE 6- OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The Corporation participates in the Other Postemployment Benefit Plan of the Commonwealth of Puerto Rico for Retired Participants of the Employees' Retirement System (the "OPEB Plan"). The OPEB Plan is an unfunded defined benefit other postemployment healthcare benefit plan administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB No. 75"). Under the guidance of GASB No. 75, the Commonwealth and its component units are considered to be one employer and are classified for financial reporting purposes as a single employer defined benefit OPEB Plan.

The OPEB Plan covers a payment of up to \$100 per month to the eligible medical insurance plan selected by each member provided that the member retired prior to July 1, 2013 (Act No. 483, as amended by Act No. 3). The OPEB Plan is financed by the Commonwealth through legislative appropriations. However, the Commonwealth claims reimbursement from each employer monthly for the corresponding amount of the OPEB payments made by the Commonwealth in relation to the retirees associated with each employer. There is no contribution requirement from the plan members during active employment. The retirees contribute the amount of the healthcare insurance premium not covered by the Commonwealth contribution. Plan members were eligible for benefits upon reaching the applicable retirement age. Act No. 3 of 2013 eliminated this healthcare benefit to the OPEB plan members that retired after June 30, 2013.

OPEB Deferred Outflows of Resources and Deferred Inflows of Resources

GASB No. 75 required to determine deferred outflows of resources and deferred inflows of resources to be amortized and recognized in the annual OPEB expense. Because all participants are inactive, there are no deferred outflows or inflows of resources as changes in actuarial assumptions, economic or demographic gains and losses, and changes in proportionate share are recognized immediately during the measurement date. However, as of June 30, 2022, \$4 thousand reported as deferred outflows of resources related to OPEB, resulting from the benefits paid subsequent to the measurement date, will be recognized as a reduction of total OPEB liability in the year ended June 30, 2022.

NOTE 12- INSURANCE RESERVE

Farm Insurance Corporation of Puerto Rico, as an insurance corporation, is authorized to issue policies to insure the crops of the Puerto Rico farmers and is also regulated by the Office of the Insurance Commissioner of Puerto Rico. All insurance companies duly authorized to do business in Puerto Rico need to comply with an assets reserve to pay claims as they occur. The financial position of the Corporation does not have sufficient liquidity in assets to pay claims if this occurs. In this scenario, the Governor must authorize through executive order the transfer of funds to the Corporation from the Emergency Fund in case the Corporation needs resources to pay claims to farmers.

NOTE 14- PROMESA

On June 30, 2016, the US President signed the Puerto Rico Oversight, Management, and Economic Stability Act (PROMESA), which grants the Commonwealth and its component unit access to an orderly mechanism to restructure their debts in exchange for significant federal oversight over the Commonwealth's finances. In board terms PROMESA seeks to provide Puerto Rico with fiscal and economic discipline through the operation of a control board, relief from creditor lawsuits through the enactment of a temporary stay on litigation, and two alternative methods to adjust unsustainable debt.

First, to ensure fiscal and economic discipline, PROMESA creates a federally appointed oversight board that has plenary Corporation over Puerto Rico's finances. The board's primary function is to provide fiscal oversight through the development and approval of fiscal plans and budgets, and to enforce compliance with those plans and budgets through broad based powers such as reducing non-debt expenditures and instituting certain hiring freezes. The board also has oversight over legislative processes because PROMESA requires the board to review new laws and deny their enforcement if they are inconsistent with the approved fiscal plans and budgets. The board also has Corporation in review contracts to ensure compliance with the plan, and to prevent the execution or enforcement of a contract, rule, executive order or regulation to the extent that it is inconsistent with the approved fiscal plan.

Second, the enactment of PROMESA also operates as bread-based stay on litigation, applicable to all entities, whit respect to claims related to Puerto Rico's financial debt, as well as on enforcement of provisions in contracts that allow for termination and the exercise of remedies based on non-payment of financial obligations, among other conditions.

Finally, PROMESA contains two methods to adjust Puerto Rico's debts. The first method is a streamlined process to achieve modifications of financial indebtedness with the consent of a supermajority of affected financial creditors. This method has benefited such as potential speed relative to a traditional restructuring through a formal in-court process. The second method is a court-supervised debt-adjustment process, which is modeled on Chapter 9 of the US Bankruptcy Code. This process includes the so-called "cram-down" power, which may provide Puerto Rico whit flexibility in debt adjustment, but it also gives the oversight board total control over the adjustment process and includes certain provisions designed to protect creditor interest. On August 31, 2016, the US President extended the appointment of seven members to the Oversight Board.
