## **INDEPENDENT AUDITORS' REPORT**

To: The Board of Directors of  
Puerto Rico Land Administration

### **Opinion**

We have audited the financial statements of the Puerto Rico Land Administration, a component unit of the Commonwealth of Puerto Rico, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Puerto Rico Land Administration's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Puerto Rico Land Administration as of June 30, 2024, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Puerto Rico Land Administration, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Empasis of Matter**

As discussed in Note 3 to the accompanying basic financial statements, the Puerto Rico Land Administration has restated its net position as of June 30, 2023, to correct certain errors. Our opinion is not modified with respect to this matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Puerto Rico Land Administration's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Puerto Rico Land Administration's internal. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Puerto Rico Land Administration's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Proportionate Share of the Collective Total Pension Liability and Related Ratios, the Schedule of Proportionate Share of the Collective Total Postemployment Benefit Liability and Related Ratios and the Notes to the Required Supplementary Information, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, are required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2024  
(UNAUDITED)**

---

This section of the Puerto Rico Land Administration (the Administration) financial statements presents a narrative overview and analysis of the Administration's financial performance and is designed to assist the reader in focusing on significant financial issues and activities and to identify any significant changes in the financial position of the Administration as of and for the fiscal year ended June 30, 2024. The information presented herewith should be read in conjunction with the Administration's basic financial statements and accompanying notes.

**1. FINANCIAL HIGHLIGHTS**

- Total assets increased by approximately \$159.5 million (or 48.85%)
- Deferred outflows of resources decreased by approximately \$2.7 million (or 43.30%)
- Cash increased by approximately \$9.6 million (or 23.68%)
- Capital assets increased by approximately \$13.9 thousand (or .81%)
- Total liabilities decreased by approximately \$4.6 million (or 6.35%)
- Total pension liability decreased by approximately \$3.2 million (or 9.05%)
- Deferred inflows of resources increased by approximately \$148.3 million (or 174.62%)
- Operating income decreased by approximately \$773 thousand (or 4.65%)
- Non-operating revenues increased by \$2 million (or 49.49%)
- Operating expenses increased by \$4.9 million (or 122.58%)

**2. OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Administration's basic financial statements, which are comprised of the financial statements and the notes to the financial statements. Since the Administration is comprised of a single proprietary fund, no fund level financial statements are shown.

Basic Financial Statements – The basic financial statements are designed to provide readers with a broad overview of the Administration's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Administration's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources, with the difference between the two reported as net position. Net position increases when revenues exceed expenses. An increase in assets without a corresponding increase to liabilities results in increased net position, which indicates an improved financial position.

---

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**AS OF AND FOR THE YEAR ENDED JUNE 30, 2024**  
**(UNAUDITED)**

---

The statement of revenues, expenses, and changes in fund net position presents information showing how an entity's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of timing of related cash flows.

The last of the required financial statements is the statement of cash flows. This statement reports on cash receipts, cash payments, and net changes in cash resulting from operating, investing, and capital and noncapital financing activities, and provides answers to such questions as where cash came from, what cash was used for, and what was the change in the cash balance during the reporting period.

Notes to the Basic Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2024  
(UNAUDITED)**

---

The Administration's net position increased by approximately \$13.1 million, mainly due to the result of operations during the fiscal year ended June 30, 2024, which includes an increase in rental income by approximately \$2.1 million, and also increase in interest income by \$3.4 million when compared to prior year.

Total assets and deferred outflows of resources increased by approximately by \$156.8 million, which is net of increase in lease receivable of approximately \$154.8 million, an increase of approximately \$9.6 million in cash and restricted cash, and a decrease of approximately \$341.2 thousand in land and properties leased under long-term contracts mainly related to the depreciation expense of the year. In addition, there was an increase in capital assets of approximately \$13.9 thousand, which includes the depreciation expense for the year of approximately \$38.3 thousand, and additions amounting to \$58.4 thousand. Also, there was a decrease in deferred outflows of resources for approximately \$2.7 million related to pension and other postemployment benefits.

The increase in cash is related to net cash provided by operating activities for approximately \$4.7 million.

Condensed financial information on revenues, expenses, and changes in fund net position is presented below (all amounts in thousands):

Description	2024	2023	Increase (Decrease)	Percentage

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2024  
(UNAUDITED)**

---

Operating expenses comprising principally of administration expenses, are mostly payroll, pensions, professional services, depreciation and/or amortization, and loss on reevaluation of properties held-for-sale and held-for-future use.

The Administration's strategy is focused on long-term ownership of the current resources and leased them. During the year ended June 30, 2024, the Administration remains constant in terms of operations related to the lease of land and properties.

Operating expenses increased by approximately \$4.9 million (or 122.56%), mostly caused by the following:

- Decrease in professional services for approximately \$615.5 thousand (or 55.26%)
- Decrease in salaries and fringe benefits for approximately \$415.8 thousand (or 14.05%)
- Decrease in utilities for approximately \$118.9 thousand (or 28.12%)
- There was a decrease in pension recovery for approximately \$642.4 (or 24.91%)
- There was a loss on revaluation of land held-for-sale of approximately \$5.0 million (or 100%)
- Increase in repairs and maintenance for approximately \$759 thousand (or 513.76%)

Capital Assets – The Administration acquires, invests and or develops existing facilities, vacant business sites, unimproved land and other real estate for future development by the government or private sector. Site developed and buildings along with land held for lease, sale or future use are segregated from the capital assets being used in Administration's operations.

The following table summarizes the capital assets of the Administration as of June 30, 2024 and 2023, (all amounts in thousands):

Description	2024	2023	Increase (Decrease)	Percentage
CAPITAL ASSETS:				
Land	\$ 106	\$ 106	\$ -	0.00%

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2024  
(UNAUDITED)**

---

Change in accumulated depreciation is due to depreciation expense of buildings and improvements and furniture and equipment for approximately \$15.2 thousand and \$19.2 thousand, respectively. Also, due to the depreciation of vehicles of approximately \$3.9 thousand. Vehicles amounting to \$63.1 thousand were disposed during the year ended June 30, 2024, resulting in a loss on disposal of assets of \$7.7 thousand. For a detailed activity of capital assets, please refer to Note 8 of the basic financial statements.

**4. COMMITMENTS AND CLAIMS**Guarantees

The Administration serves as absolute, unconditional, and irrevocable guarantor to the US Government, represented by the Department of the Navy, for an acquisition of properties made by the Local Redevelopment Authority for Naval Station Roosevelt Roads. For additional details on this commitment, please refer to Note 20 of the accompanying basic financial statements.

Claim to Federal Management Administration (FEMA)

During fiscal year 2019, Management re-evaluated the extent of the hurricane-related damages to the Administration's properties held-for-sale and estimated its losses. Accordingly, on December 2019, the Administration presented a claim in respect to hurricane damages to the Federal Emergency Management Administration (FEMA). On January 11, 2021, the Administration received notification of approval of funds for the total amount of approximately \$10.2 million. During the year ended June 30, 2024, the Administration has expenditures of approximately \$639 thousand related to federal funds. Refer to Notes 18 and 20 of the accompanying basic financial statements.

**5. CURRENTLY KNOWN FACTS**

The Administration entered into a non-cancelable rental lease agreements after June 30, 2024; these lease agreements have a term of five (5) years commencing after year end. Monthly lease payments amount from \$3 thousand to \$6 thousand. Lease receivable and deferred inflows of resources, at the inception of the lease, is expected to be approximately \$493 thousand from these lease agreements.

**6. REQUEST FOR INFORMATION**

This financial report is designed to provide those interested with a general overview of the Administration's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Puerto Rico Land Administration, 171 Carlos Chardon Avenue, Suite 101, San Juan, Puerto Rico, 00918.

*(A Component Unit of the Commonwealth of Puerto Rico)*

## NOTES TO BASIC FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2024

---

### 1) Reporting Entity

The Puerto Rico Land Administration (the Administration) is a public corporation and a component unit of the Commonwealth of Puerto Rico (the Commonwealth). The Administration was created by Act No. 13 of May 16, 1962, as amended, to promote the welfare of the community through efforts and programs designed for the efficient utilization of public land in Puerto Rico. Among its programs, the Administration acquires, through negotiation or expropriation, parcels of land, on behalf of government entities, for future development or for reserve. The Administration is also dedicated to the rental of certain tracts of land through lease contracts for public and private use.

The Administration is exempt from the payment of Puerto Rico taxes. On December 30, 2020, Act No. 164, was approved, to amend Articles 4, 7, 11, 14 and 15 of the Act No. 13 of May 16, 1962. Pursuant to this Act, the Administration is exempt from payments related to property taxes.

### 2) Basis of Presentation and Summary of Significant Accounting Policies

The accounting and reporting policies of the Administration conform to accounting principles generally accepted in the United States of America (US GAAP) for governments as prescribed by the Governmental Accounting Standards Board (GASB). Following is a description of the most significant accounting policies:

Measurement focus, basis of accounting and financial statements presentation – Financial statements of proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when incurred, regardless of the timing of related cash flows. Proprietary funds present three basic financial statements, which include: (i) statement of net position, (ii) statement of revenues, expenses, and changes in fund net position, and (iii) statement of cash flows. The statement of net position presents the Administration's assets and liabilities, with the difference between assets plus deferred outflows of resources, less liabilities plus deferred inflows of resources, reported as net position. Net position may be reported in three categories:

- Net investment in capital assets – Consists of capital assets, net of accumulated depreciation and amortization and reduced by the outstanding balances of related debt when such debt is attributable to the acquisition, construction, or improvement of those capital assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt should also be included in this component of net position.
- Restricted of net position – Consists of restricted assets reduced by related liabilities. Restricted net assets result when constraints are placed on the use of net assets, either externally imposed by creditors, grantors, contributions, and the like, or imposed by law through constitutional provisions or enabling legislation.

- Unrestricted net position – Is the net amount of (i) assets plus deferred outflows of resources, less (ii) liabilities, and deferred inflows of resources that do not meet the definition of the two preceding categories. Unrestricted net position often is assigned in order to indicate that management does not consider them to be available for general operations. Unrestricted net position often has constraints on the use that are imposed by management, but such constraints may be removed or modified.

When both restricted and unrestricted resources are available for use, it is the Administration's policy to use restricted resources first and the unrestricted resources when they are needed.

The statement of revenues, expenses and changes in fund net position distinguishes operating revenues and expenses from non-operating items. The operating revenues of the Administration are those generated from the activities related to the sales and rental of land and properties. Operating expenses include payroll and related-payroll benefits, pension expense (recovery), professional services, depreciation and amortization, property taxes, insurance, repairs and maintenance and other. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The statement of cash flows reports cash receipts, cash payments, and net change in cash resulting from operating, investing, and capital and non-capital financing activities, and provides answers to such questions as where cash came from, what was cash used for, and what was the change in the cash balance during the reporting period.

Use of estimates – The preparation of the basic financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the allowance for uncollectible receivables, lease receivable, useful life of capital assets, impairment on properties held-for-sale and held-for-future-use, total pension liability, and other postemployment benefits liability.

Restricted cash – Funds set aside from federal grants and state contributions for the payment of certain expenses in relation to properties improvements.

Notes, interest, and other receivables – Notes, interest and other receivables are stated net of estimated allowance for uncollectible accounts. The allowance for uncollectible accounts is maintained on all types of receivables that historically experience uncollectible amounts. Allowances are based on collection experience and management's evaluation of the current status of existing receivables.

Leases – The Administration accounts for leases in accordance with GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statements users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the principle that leases are financings of the right-to-use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. During the year ended June 30, 2024, the Administration has leasing activities as lessor and as a lessee. Lease collections are allocated between principal and interest. The interest is charged to the statement of activities over the lease period. All other short-term leases have been classified as operating leases. Rental income is presented as operating revenues in the accompanying statement of revenues, expenses and changes in fund net position.

Lease receivable – The Administration's lease receivable is measured at the present value of lease payments expected to be received during the lease term.

Land and properties leased under long-term contracts – Land and properties are purchased and/or constructed are recorded at historical cost. Donated land or properties are recorded at estimated market value at the time of donation.

Depreciation expense is computed using the straight-line method over the estimated useful lives of the respective capital assets, as follows:

Description	Useful life (In years)
Structures and improvements	10-25
Machinery, equipment, and tanks	25

At the time the capital assets are sold or otherwise disposed, the asset carrying value and related accumulated depreciation is removed from books and the resulting gain or loss, if any, is credited or charged to operations.

Land and properties held-for-sale and for future use – Land and properties held-for-sale and held for future use are recorded at cost, plus allocable interest, costs of appraisals, related acquisition studies and improvements, and other capitalizable costs or market value, whichever is lower. Donated land and properties are stated at fair market value at date of donation.

The Management of the Administration is of the opinion that the cost of appraising all land and properties would represent a significant and unwarranted expense. Appraisals of certain properties were made during the fiscal year 2024, as well as current market value information of certain land and properties obtained from sales transactions and other sources were reviewed as part of the impairment evaluation. During the year ended June 30, 2024, the Administration recognized an impairment due to a loss on revaluation of properties held-for-sale by \$4,975,500.

## NOTES TO BASIC FINANCIAL STATEMENTS

### Fiscal Year Ended June 30, 2024

---

Capital assets – Capital assets that are purchased or constructed are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the time of donation. The Administration defines capital assets as assets with an individual cost of more than \$500 and a useful life of five (5) years or more. The cost of normal maintenance and repairs that do not add to the value of the capital asset or materially extend capital asset lives are not capitalized.

Depreciation expense is computed using the straight-line method over the estimated useful lives of the respective capital assets, as follows:

Description	Useful life (In years)
Building and improvements	10-30
Furniture and equipment	5-15
Vehicles	5
Computer software	5

At the time capital assets are sold or otherwise disposed, the cost and related accumulated depreciation is removed from books and the resulting gain or loss, if any, is credited or charged to operations.

Capital assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with the GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*.

Events or changes in circumstances that may be indicative of impairment include evidence of physical damage, enactment or approval of laws or regulations or other changes in environmental factors, technological changes or evidence of obsolescence, changes in the manner or duration of use of a capital asset, and construction stoppage. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. The amount of impairment of these assets is determined by comparing the carrying value with the fair value of the asset. Fair value is determined based on discounted cash flows or appraised values, depending on the nature of the assets. Management understands that there were no instances of impairment of capital assets during the year ended June 30, 2024.

Compensated absences – Based on Act No. 26 of 2017, employees are granted for the accumulation of 1.25 days per month (15 days annually) of vacation time. Vacation time accumulated is fully vested by the employees from the first day of work up to a maximum of 60 days. Employees generally accumulate sick leave at a rate of 1.5 days per month up to an annual maximum of 18 days and an accumulated maximum of 90 days. In the event of an employee resignation, the employee is reimbursed for accumulated vacation days up to the maximum allowed (60 days).

Unearned revenues – The Administration recognized revenue over time or as goods or services are delivered. When cash is received but the related goods or services are not yet provided, the amount is recorded as unearned revenue.

---

Termination benefits – The Administration accounts for termination benefits in accordance with the provisions of GASB No. 47, *Accounting for Termination Benefits*, which indicates that employers should recognize a liability and expense for voluntary termination benefits when the offer is accepted, and the amount can be estimated. A liability and expense for involuntary termination benefits should be recognized when a plan of termination has been approved by those with the authority to commit the government to the plan, the plan has been communicated to the employees, and the amount can be estimated.

Land and properties sales – Land and properties sales are recognized when title to the land and property is conveyed to the buyer. When portions of land parcels are sold, the cost of land is determined by computing an average area unit cost at the date of sale, which is then applied to the total area sold. Sale of air and surface rights to land is recognized as sale of land under the full accrual method of accounting.

Risk management – The Administration is responsible for assuring that the Administration's property is properly insured. Annually, the Administration evaluates the information regarding all property owned and the respective replacement values, and purchases property and casualty insurance policies. Insurance coverage for fiscal year 2024 remained similar to those of prior years. For the last three years, insurance settlements have not exceeded the amount of coverage.

Non-exchange transactions – The Administration accounts for its non-exchange transactions in accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*, which establishes accounting and financial reporting standards for non-exchange transactions involving financial or capital resources (for example, most taxes, grants, and private donations). Under the provisions of this statement, the provider and the recipient should recognize the non-exchange transaction as an expense and revenue, respectively, when all eligibility requirements are satisfied.

Deferred Outflows/Inflows of Resources – In addition to assets, the statement of net position reports a separate section for deferred outflows of resources which represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses) until then. The Administration recorded as deferred outflows of resources for certain pensions and other postemployment benefits related items.

Of the pension related items, changes in proportional share of contributions and differences between expected and actual experience are capitalized and recognized over a period equal to the expected remaining working lifetime of active and inactive participants. Net differences between projected and actual earnings on pension plan investments is deferred and recognized over a five-year period. Pension contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability after the next measurement date.

Of the other postemployment benefits related items only other postemployment benefits payments made subsequent to the measurement date are presented as a deferred outflow item, which will be recognized as a reduction of the total other postemployment benefits (OPEB) liability after the next measurement date.

---

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources, which represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The Administration has deferred inflows of resources related to pensions and to its activities as a lessor. The pension related items include changes in proportional share of contributions, differences between expected and actual experience, and changes in actuarial assumptions; these items are deferred and recognized over a period equal to the expected remaining working lifetime of active and inactive participants. Net differences between projected and actual earnings on pension plan investments are deferred and recognized over a five-year period.

Related to its activities as a lessor, the deferred inflows of resources is recorded at the initiation of the lease term in an amount equal to the initial recording of the lease receivable. The deferred inflows of resources is amortized on a straight-line basis over the term of the lease.

Accounting for pension costs – The Administration accounts for pension costs under the provisions of GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. Under the guidance of GASB No. 73, the Commonwealth and its component units (including the Administration) are considered to be one employer and are classified for financial reporting purposes as a single-employer defined benefit plan. GASB Statement No. 71 requires that a government recognize a deferred outflow of resources for its pension contributions made subsequent to the measurement date.

Accounting for other post-employment benefits (OPEB) – The Administration accounts for OPEB costs under the provisions of the GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. Qualified retired employees of the Administration participate in the Other Postemployment Plan of the Commonwealth for Retired Participants of the Employee's Retirement System (the OPEB Plan). The OPEB Plan is an unfunded, multi- employer defined benefit other postemployment healthcare benefit plan. The OPEB Plan is administered on a pay-as-you-go basis. Therefore, in accordance with GASB Statement No. 75, the Administration reports its proportionate share of OPEB liability and the related OPEB amounts.

Accounting pronouncements issued but not yet effective – The following new accounting standards have been issued but are not yet effective:

- GASB Statement No. 101, *Compensated Absences*. This Statement establishes standards of accounting and financial reporting for (a) compensated absences and (b) associated salary-related payments, including certain defined contribution pensions and defined contribution other postemployment benefits (OPEB). The requirements of this Statement apply to the financial statements of all state and local governments. The Statement does not apply to benefits that are within the scope of Statement No. 47, *Accounting for Termination Benefits*, as amended. This statement supersedes Statement No. 16, *Accounting for Compensated Absences*; Implementation Guide No. 2015-1, Questions 5.255.1, Z.16.1, and Z.16.2; Implementation Guide No. 2016-1, Implementation Guidance Update—2016, Question 5.37; Implementation Guide No. 2017-2, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, Questions 4.20 and 4.21; and Implementation Guide No. 2017-3, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (and Certain Issues Related to OPEB Plan Reporting)*, Questions 4.18, 4.19, and 4.496. This Statement amends NCGA Statement 1, *Governmental Accounting and Financial Reporting Principles*, paragraphs 42, 43, and 158; Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, paragraph 119; Statement No. 68, *Accounting and Financial Reporting for Pensions*, paragraphs 123, 126-128, 132, and 133; Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and Amendments to Certain Provisions of GASB Statements 67 and 68, paragraphs 102, 105-107, 111, and 112; Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, paragraphs 10 and 63 and footnote 6; Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, paragraphs 8, 230, 233-235, 239, 240, and 246 and footnote 5; GASB Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*, paragraph 14; Implementation Guide 2015-1, Question 7.22.4; Implementation Guide 2017-2, Question 4.22; and Implementation Guide 2017-3, Question 4.20. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.
- GASB Statement No. 102, *Certain Risk Disclosures*. State and local governments face a variety of risks that could negatively affect the level of service they provide or their ability to meet obligations as they come due. Although governments are required to disclose information about their exposure to some of those risks, essential information about other risks that are prevalent among state and local governments is not routinely disclosed because it is not explicitly required. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints.

# PUERTO RICO LAND ADMINISTRATION

(A Component Unit of the Commonwealth of Puerto Rico)

## NOTES TO BASIC FINANCIAL STATEMENTS

### Fiscal Year Ended June 30, 2024

---

This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. Earlier application is encouraged.

- GASB Statement No. 103, Financial Reporting Model Improvements. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability.

This Statement continues the requirement that the basic financial statements be preceded by management's discussion and analysis (MD&A), which is presented as required supplementary information (RSI). MD&A provides an objective and easily readable analysis of the government's financial activities based on currently known facts, decisions, or conditions and presents comparisons between the current year and the prior year. This Statement requires that the information presented in MD&A be limited to the related topics discussed in five sections: (1) Overview of the Financial Statements, (2) Financial Summary, (3) Detailed Analyses, (4) Significant Capital Asset and Long-Term Financing Activity, and (5) Currently Known Facts, Decisions, or Conditions. Furthermore, this Statement stresses that the detailed analyses should explain why balances and results of operations changed rather than simply presenting the amounts or percentages by which they changed. This Statement emphasizes that the analysis provided in MD&A should avoid unnecessary duplication by not repeating explanations that may be relevant to multiple sections and that "boilerplate" discussions should be avoided by presenting only the most relevant information, focused on the primary government. In addition, this Statement continues the requirement that information included in MD&A distinguish between that of the primary government and its discretely presented component units. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged.

- GASB Statement No. 104, *Disclosure of Certain Capital Assets*. State and local governments are required to provide detailed information about capital assets in notes to financial statements. Statement No. 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments, requires certain information regarding capital assets to be presented by major class. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets.

This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement No. 87, Leases, and intangible right-to-use assets recognized in accordance with Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, should be disclosed separately by major class of underlying asset in the capital as-sets note disclosures. Subscription assets recognized in accordance with Statement No. 96, Subscription-Based Information Technology Arrangements, also should be separately disclosed. In addition, this Statement requires intangible assets other than those three types to be disclosed separately by major class.

This Statement also requires additional disclosures for capital assets held for sale. A capital asset is a capital asset held for sale if (a) the government has decided to pursue the sale of the capital asset and (b) it is probable that the sale will be finalized within one year of the financial statement date. Governments should consider relevant factors to evaluate the likelihood of the capital asset being sold within the established time frame. This Statement requires that capital assets held for sale be evaluated each reporting period. Governments should disclose (1) the ending balance of capital assets held for sale, with separate disclosure for historical cost and accumulated depreciation by major class of asset, and (2) the carrying amount of debt for which the capital assets held for sale are pledged as collateral for each major class of asset. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. Earlier application is encouraged.

Management is evaluating the impact that these Statements will have on the Administration’s basic financial statements.

#### 3) Restatement of Net Position

During the year ended June 30, 2024, the Administration identified certain errors related to (i) net understatement of lease receivable; (ii) accrued interest, and deferred inflows of resources related to leases; (iii) land and properties held-for-sale, (iv) accrued liabilities, (v) unearned revenues, (vi) construction in process that impact the Administration's previously issued financial statements. These errors were evaluated and determined to be material to the financial statements as of June 30, 2023. To properly reflect the corrections in the originating periods, the Administration has restated its previously issued financial statements to reflect the correction of the errors. As the prior period financial statements have not been presented herein, the restatement has been recognized as an adjustment to the July 1, 2023, opening balances in the accompanying Statement of Revenues, Expenses, and Changes in Net Position for the year ended June 30, 2024. Corrections are as follows:

Description	Amount
Net position balance as of June 30, 2023	\$ 177,638,445
Understatement in lease receivable - GASB No. 87	4,043,348
Overstatement in lease interest receivable - GASB No. 87	(110,407)
Understatement of deferred inflows of resources- GASB No. 87	(3,506,502)
Understatement of unearned revenues	(160,000)
Overstatement of bonus accrual	318,999
Understatement of construction in process	740,768
Understatement of due to governmental entities	(114,250)
Overstatement of land and properties held-for-sale	(4,033,557)
Net position balance as of June 30, 2023, as restated	<u>\$ 174,816,844</u>

#### 4) Deposits Placed with Bank

The Administration is authorized to deposit funds in the custody of financial institutions approved by the Commonwealth. The Commonwealth's regulations require domestic commercial banks to maintain collateral securities pledged for the security of public deposits at an amount in excess of the federal insurance coverage.

Deposits, either insured or collateralized, are not considered to be subject to custodial credit risk. Custodial credit risk is the risk that, in the event of a failure of the counterparty to the transaction, the Administration may not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. As of June 30, 2024, cash in commercial banks have a carrying amount of approximately \$50 million and a depository bank balance of approximately \$51 million.

### **5) Claim receivable from Public Entity Trust**

On August 10, 2018, the Government Development Bank for Puerto Rico (GDB) commenced an action to restructure certain of its indebtedness pursuant to Qualifying Modification (the Qualifying Modification) under Title VI of PROMESA. The United States District Court for the District of Puerto Rico approved GDB's proposed restructuring on November 6, 2018, and the Qualifying Modification went effective on November 29, 2018.

Pursuant to Act 109-2017, also known as the *Government Development Bank for Puerto Rico Debt Restructuring Act* (the GDB Restructuring Act) and the terms of the Qualifying Modification, claims on account of deposits held by the Commonwealth and other public entities, including the Administration, were exchanged for beneficial units in the "Public Entity Trust" (PET) created pursuant to the GDB Restructuring Act. Specifically, under the provisions of the GDB Restructuring Act, on the closing date of the Qualifying Modification (i.e., November 29, 2018) (the Closing Date), the balance of liabilities owed between the Commonwealth and its agencies, instrumentalities and affiliates, including the Administration (each a Non-Municipal Government Entity) and GDB was determined by applying the outstanding balance of any deposits held at GDB in a Non-Municipal Government Entity's name against the outstanding balance of any loan of such Non-Municipal Government Entity owed to GDB or of any bond or note of such Non-Municipal Government Entity held by GDB as of such date.

Those Non-Municipal Government Entities having net claims against GDB, after giving effect to the foregoing adjustment, which included the Administration, received their pro rata share of interests on the PET, which was deemed to be in full satisfaction of any and all claims such Non-Municipal Government Entity may have had against GDB. As a result of the execution of the Qualifying Modification the Administration received beneficial units of the PET amounting to \$36,553,000 in exchange for the deposits held at GDB. The assets of the PET (the PET Assets) consist of, among other items, a claim in the amount of approximately \$578 million against the Commonwealth, which is the subject of a proof of claim filed in the Commonwealth's Title III case (the PET Claim).

The Official Committee of Unsecured Creditors appointed in the Commonwealth Title III Case has objected to the PET Claim and, as of the date hereof, the Court has not determined if the PET Claim is an allowed claim that will be entitled to a distribution.

The Administration's recovery of the PET units will depend on the payment of the claim filed in the Commonwealth's Title III case. As a result, as of June 30, 2024, units received from the PET were fully reserved.

### **7) Land and Properties**

The Administration's land and properties inventory is segregated into the following categories:

Leased under long-term contracts – Represent the investment in land and properties subject to lease contracts for varying terms. Long-term lease agreements cover initial periods of five to thirty years with renewal option periods of up to ten years. Real estate taxes, insurance and maintenance expenses are usually obligations of the lessees. Contracts provide, in certain cases, for rent increases during renewal periods to be based on fixed percentages of land market values at dates of renewal:

*Cataño Fuel Storage and Pier Facilities* – The Administration owns certain fuel storage and pier facilities in Cataño, Puerto Rico. These facilities are fully depreciated and amortized. The following summarizes the Administration's investment in these facilities as of June 30, 2024:

Description	Useful life (In years)	Amount
Structures and improvements	10 -15	\$ 3,603,578
Machinery, equipment, and tanks	25	12,295,933

Land		2,817,919
Cataño fuel storage and pier facilities, net		\$ 2,817,919

*Other properties* – As of June 30, 2024, other properties consist of the following:

Description	Useful life (In years)	Amount
Land – Frente Portuario	-	\$ 11,584,006
Project – Frente Portuario	25	2,705,166
Improvements – Finca Multeada	25	3,403,919

		19,289,969
Less: Accumulated depreciation and amortization		(3,498,501)
Other properties, net		\$ 15,791,468

During the year ended June 30, 2024, depreciation and amortization expense of improvements amounted to approximately \$341 thousand.

*Held-for-sale* – Land and properties held for sale (principally to other governmental entities) include land purchased by the Administration on behalf of other governmental entities. Land that is acquired on behalf of other governmental entities generally includes certain holding costs, which are subject to reimbursement by the acquiring entity.

Funds received under this program from the acquiring governmental entities are classified as deposits on sale of land and properties held-for-sale in the accompanying statement of net position until title is transferred to the buyer. As of June 30, 2024, properties held-for-sale amounted to approximately \$156 million. During the year ended June 30, 2024, the Administration sold a property and recognize a loss on sales of land and properties for approximately \$635 thousand.

Description	Amount

**12) Termination Benefits**

Voluntary termination benefits

On July 2, 2010, the Legislature of the Commonwealth enacted Act No. 70, “*Law to Establish a Voluntary Retirement Program*”, to establish a program that provides benefits for early retirement or economic incentives for voluntary employment termination to eligible employees, as defined, including employees of the Administration. Act No. 70 established that early retirement benefits will be provided to eligible employees that have completed between 15 to 29 years of credited services in the Retirement System and will consist of bi-weekly benefits ranging from 40% to 50% of each employee’s salary, as defined.

In this early retirement benefit program, the Administration will make the employee and employer contributions to the Retirement System and pay the corresponding pension until the employee complies with the requirements of age and 30 years of credited service in the Retirement System.

Economic incentives are available to eligible employees who have less than 15 years of credited service in the Retirement System or who have at least 30 years of credited service in the Retirement System and the age for retirement or have the age for retirement. Economic incentives will consist of a lump-sum payment ranging from one month to six months’ salary, based on employment years. For eligible employees that choose the economic incentives and have at least 30 years of credited service in the Retirement System and the age for retirement, or have the age for retirement, the Administration will make the employee and employer contributions to the Retirement System for a five-year period. Additionally, eligible employees that choose to participate in the early retirement benefit program or that choose the economic incentive and have less than 15 years of credited service in the Retirement System are eligible to receive health plan coverage for up to 12 months in a health plan selected by the Administration’s management.

As of June 30, 2024, unpaid benefits on this program were discounted for employees under the Article 4b between 3.25% through 4.80%. As of June 30, 2024, the present value of future incentive payments reported as a liability amounted to approximately \$549 thousand. During the fiscal year ended June 30, 2024, the Administration recorded a recovery on expense for approximately \$16 thousand due to the increase in the discount rate, which is included in the statement of revenues, expenses and changes in net position and previously considered in the present value of future incentive payments computation.

## NOTES TO BASIC FINANCIAL STATEMENTS

### Fiscal Year Ended June 30, 2024

From the total aggregate liability of the program as of June 30, 2024, the amount of approximately \$125 thousand should be funded during the next fiscal year. The non-current portion of the early termination obligation amounted to approximately \$424 thousand. Such amounts are disclosed respectively, as current and non-current liabilities in the accompanying statement of net position.

#### Voluntary pre-retirement program

On December 8, 2015, Act No. 211-2015 was approved to create a Voluntary Pre-retirement Program. This Act establishes that employees who have been working for the Commonwealth and enrolled in the Employees' Retirement System (ERS) before April 1, 1990 with at least 20 years of service may be eligible to participate in the payment of employer contributions on account of Social Security and Medicare; and the payment of the participant's healthcare plan during the first two years of the program. This program also provides for the employer to continue making both individual and employee contributions to the ERS. The Act No. 2011-2015 stipulate that the review and approval of Puerto Rico Office Management and Budget (PROMB) is required before implementation.

In August 2016, nine (9) employees signed an agreement to select the Voluntary Preretirement Program for a total complete program and liquidation impact of approximately \$1.4 million. On August 1, 2017, PROMB approved the program for the Administration.

As of June 30, 2024, unpaid benefits on this program were discounted for employees at a rate of 3.25% to 4.80%. As of June 30, 2024, the present value of future incentive payments reported as a liability amounted to approximately \$108 thousand. From the total aggregate liability of the program as of June 30, 2024, the amount of approximately \$40 thousand should be funded during the next fiscal year. The non-current portion of the early termination obligation amounted to approximately \$68 thousand.

### 13) Non-current Liabilities

The summarized activity on non-current liabilities for the fiscal year ended June 30, 2024, was as follows:

Description	Beginning Balance	Additions	Retirements	Ending	Due Within One Year

#### 14) The Administration as a Lessor

##### *Cataño Fuel Storage and Pier facilities*

The Administration has entered into various long-term rental agreements of certain land and properties available. The Cataño Fuel Storage and Pier facilities are leased to several companies engaged in the fuel distribution industry. Lease agreements establish a minimum annual lease payment or a “thruput” fee based on a U.S. gallon of bulk petroleum products at 60° F, passing through the facilities, whichever is greater. The leases’ expiration dates fluctuate from December 9, 2024 through December 25, 2035. The leases contain renewal options that cover from one additional ten-year period to extensions of 15 years. The rental agreements have a quarterly rental payment that ranges from approximately \$105 thousand to \$2.7 million, with an aggregate monthly payment of approximately \$3.4 million as of June 30, 2024.

#### 15) The Administration as a Lessee

The Administration has entered into right-of-use lease for equipment under cancellable leases, with terms of three years, recorded in accordance with GASB 87 Statement No. 87. Total lease liability and expense for the year ended June 30, 2024, was approximately \$47 thousand and \$20 thousand, respectively.

The lease commitment related to non-cancellable leases as of June 30, 2024, is as follows:

#### 16) Pension and Plan Description

The Defined Benefit Pension Plan for Participants of the Employees' Retirement System of the Government of the Commonwealth of Puerto Rico (the Commonwealth) (the Plan) was created pursuant to Act No. 447 on May 15, 1951, as amended (Act No. 447) to provide pension and other benefits to retired employees of the Commonwealth, its public corporations, and municipalities (ERS participants). Prior to the effect of Act No. 106 of August 23, 2017 (Act No. 106-2017), the Plan was administered by the Employees' Retirement System of the Government of the Commonwealth of Puerto Rico (the System). Effective July 1, 2017, all employer contributions were eliminated pursuant to Act No. 106-2017 and the Commonwealth implemented a "pay-as-you-go" (PayGo) system for the payment of pensions. Also, pursuant to Act No. 106-2017, the Plan was required to liquidate its assets and transfer the net proceeds to the Department of Treasury of the Commonwealth to pay pension benefits.

As a result of the implementation of the PayGo, the Plan does not meet the criteria in paragraph 4 of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, to be considered a plan that is administered through a trust or equivalent arrangement and, therefore, is required to apply the guidance in GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Under the guidance of GASB Statement No. 73, the Commonwealth and its component units are considered to be one employer, and are classified for financial reporting purposes as a single-employer defined benefit pension plan.

Act No. 106-2017 also terminated the previously existing pension programs for ERS participants as of June 30, 2017 and created a new defined contribution plan (the New Defined Contribution Plan) for existing active members and new employees hired on or after July 1, 2017.

## **NOTES TO BASIC FINANCIAL STATEMENTS**

### **Fiscal Year Ended June 30, 2024**

---

This Plan is similar to a 401(k) and is managed by a private entity. Future benefits will not be paid by the Plan. Under the New Defined Contribution Plan, members of the prior programs and new governmental employees hired on and after July 1, 2017 will be enrolled in the New Defined Contributions Program.

Act No. 106-2017, among other things, amended Act No. 447 with respect to Plan's governance, funding and benefits for active members of the actual program and new hired members. Under Act No. 106-2017, Plan's Board of Trustees was eliminated, and a new Retirement Board was created. The Retirement Board is currently responsible for governing all of the Commonwealth's three major pension systems, including the Plan.

#### *Defined Benefit Program*

The benefits provided to the Plan participants are established by Commonwealth law and may be amended only by the Legislature with the Governor's approval, or by court decision.

Certain Plan provisions are different for the three groups of members who entered the Plan prior to July 1, 2013 as described below:

- Members of Act No. 447 are generally those members hired before April 1, 1990 (contributory, defined benefit program).
- Members of Act No. 1 of February 16, 1990 (Act No. 1) are generally those members hired on or after April 1, 1990 and on or before December 31, 1999 (contributory, defined benefit program).
- Members of Act No. 305 of September 24, 1999 (Act No. 305 or System 2000) are generally those members hired on or after January 1, 2000 and on or before June 30, 2013 (defined contribution program).

All regular employees hired for the first time on or after July 1, 2013, and former employees who participated in the defined benefit program and the System 2000 program, and were rehired on or after July 1, 2013, become members of the Contributory Hybrid Program as a condition to their employment. In addition, employees who on June 30, 2013, were participants of previous programs became part of the Contributory Hybrid Program on July 1, 2013. Also, Act No. 3 of April 4, 2013 (Act No. 3 of 2013) froze all retirement benefits accrued through June 30, 2013, under the defined benefit program and, thereafter, all future benefits accrued under the defined contribution formula used for the System 2000 program participants.

#### *Service Retirement Eligibility Requirements*

Eligibility for Act No. 447 – Members – Act No. 447 members who were eligible to retire as of June 30, 2013 continue to be eligible to retire at any time. Prior to July 1, 2013, Act No. 447 members could retire upon (1) attainment of age 55 with 25 years of credited service, (2) attainment of age 58 with 10 years of credited service, and (3) any age with 30 years of credited service.

Before July 1, 1956	57 and up	59

- *Eligibility for Act No. 1 Members* - Act No. 1 members who were eligible to retire as of June 30, 2013 continue to be eligible to retire at any time. Prior to July 1, 2013, Act No. 1 members could retire upon (1) attainment of age 55 with 25 years of credited service, or (2) attainment of age 65 with 10 years of credited service.

Act No. 1 members who were not eligible to retire as of June 30, 2013 are eligible to retire upon attainment of age 65 with 10 years of credited service.

- *Eligibility for System 2000 Members* - System 2000 members who were eligible to retire as of June 30, 2013 continue to be eligible to retire at any time.

System 2000 members who were not eligible to retire as of June 30, 2013 are eligible to retire upon attainment of the retirement eligibility age shown in the table below otherwise.

#### *Service Retirement Annuity Benefits*

- An annuity payable for the lifetime of the member equal to the annuitized value of the balance in the Defined Contribution Hybrid Contribution Account at the time of retirement, plus, for Act No. 447 and Act No. 1 members, the accrued benefit determined as of June 30, 2013. If the balance in the Defined Contribution Hybrid Contribution Account is \$10 thousand or less, it shall be paid as a lump sum instead of as an annuity. For System 2000 participants this service retirement annuity benefit is not available. *Accrued Benefit as of June 30, 2013 for Act No. 447 Members* – The accrued benefit as of June 30, 2013 shall be determined based on the average compensation, as defined, for Act No. 447 members, the years of credited service, and the attained age of the member all as of June 30, 2013.

If the Act No. 447 member had at least 30 years of credited service as of June 30, 2013, the accrued benefit equals 65% of average compensation if the member was under age 55 as of June 30, 2013, or 75% of average compensation if the member was at least age 55 as of June 30, 2013. For participants selecting to coordinate with social security (the Coordination Plan), the benefit is re-calculated at the Social Security Retirement Age (SSRA), as defined, as 1.5% of average compensation up to \$6,600 multiplied by years of credited service, up to 30 years, plus 65% (75% if the member was at least age 55 as of June 30, 2013) of average compensation in excess of \$6,600.

If the Act No. 447 member had less than 30 years of credited service as of June 30, 2013, and attained 30 years of credited service by December 31, 2013, the accrued benefit equals 55% of average compensation if the member was under age 55 as of June 30, 2013 or 60% of average compensation if the member was at least age 55 as of June 30, 2013.

For participants selecting the Coordination Plan, the benefit is re-calculated at SSRA as 1.5% of average compensation up to \$6,600 multiplied by years of credited service, up to 30 years, plus 55% (60% if member was at least age 55 as of June 30, 2013) of average compensation in excess of \$6,600. Member contributions received from Act No. 447 members eligible for this transitory benefit during the period beginning July 1, 2013 and ending upon the attainment of 30 years of credited service are considered pre-July 1, 2013 contributions; the contributions to the Defined Contribution Hybrid Contribution Account begin after the member attains 30 years of credited service.

If the Act No. 447 member had less than 30 years of credited service as of December 31, 2013, the accrued benefit equals 1.5% of average compensation multiplied by years of credited service up to 20 years, plus 2% of average compensation multiplied by years of credited service in excess of 20 years. Maximum benefit is 75% of average compensation. Except for Commonwealth Police and Commonwealth Firefighters, the benefit is actuarially reduced for each year payment commences prior to age 58. For participants selecting the Coordination Plan, the basic benefit is re-calculated at SSRA as 1% of average compensation up to \$6,600 multiplied by years of credited service up to 20 years, plus 1.5% of average compensation up to \$6,600 multiplied by years of credited service in excess of 20 years, plus 1.5% of average compensation in excess of \$6,600 multiplied by years of credited service up to 20 years, plus 2.0% of average compensation in excess of \$6,600 multiplied by years of credited service in excess of 20 years. Except for Police and Firefighters, the benefit is actuarially reduced for each year payment commences prior to age 58.

## NOTES TO BASIC FINANCIAL STATEMENTS

### Fiscal Year Ended June 30, 2024

---

- *Accrued Benefit as of June 30, 2013 for Act No. 1 Members* – The accrued benefit as of June 30, 2013 shall be determined based on the average compensation for Act No. 1 members, the years of credited service, and the attained age of the member all as of June 30, 2013.

For Act No. 1 members, the accrued benefit equals 1.5% of average compensation multiplied by years of credited service. The benefit is actuarially reduced for each year payment commences prior to age 65.

#### *Special Benefits*

##### *(1) Minimum Benefits*

- Past Ad Hoc Increases

The legislature, from time to time, increases pensions for certain retirees as described in Act No. 124, approved on June 8, 1973, and Act No. 23, approved on September 23, 1983.

- Minimum Benefits for Members who retired before July 1, 2013 (Act No. 156 of 2004, Act No. 35 of 2007, and Act No. 3 of 2013).

The minimum monthly lifetime income for members who retired or become disabled before July 1, 2013, is \$500 per month effective July 1, 2013 (\$400 per month effective July 1, 2007, and \$300 per month up to June 30, 2007).

- Coordination Plan Minimum Benefit

A minimum monthly benefit is payable upon attainment of SSRA such that the benefit, when added to the Social Security Benefit, is not less than the benefit payable prior to SSRA.

#### *Cost-of-Living Adjustments (COLA) to Pension Benefits*

The Legislature, from time to time, increased pensions by 3% for retired and disabled members. Beneficiaries are not entitled to COLAs granted after the retiree's death. The first increase was granted by Act No. 10 of 1992. Subsequent 3% increases have been granted every third year since in 1992, with the latest 3% increase established on April 24, 2007, and effective July 1, 2007 (retroactive to January 1, 2007) for retired and disabled members that were receiving a monthly benefit on or before January 1, 2004 (Act No. 35 of 2007). In addition, effective July 1, 2008, any retired or disabled member who was receiving a monthly annuity on or before January 1, 2004, less than \$1,250 per month, received an increase of up to 3% without exceeding the limit of \$1,250 per month (Act No. 35 of 2007). Effective March 15, 2022, cost-of-living adjustments (COLAs) and other features of the ERS pension plans have been eliminated.

#### (2) Special "Bonus" Benefits

- Christmas Bonus (Act No. 144, as Amended by Act No. 3)

An annual bonus of \$200 for each retiree, beneficiary, and disabled member paid in December, provided the member retired prior to July 1, 2013.

- Medication Bonus (Act No. 155, as Amended by Act No. 3)

An annual bonus of \$100 for each retiree, beneficiary, and disabled member to cover health costs paid in July, provided the member retired prior to July 1, 2013. Evidence of coverage is not required. The amount is prorated if there are multiple beneficiaries.

#### *Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

As of June 30, 2024, the Administration reported a liability of approximately \$32 million for its proportionate share of the total pension liability. The total pension liability was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023 (measurement date). The Administration's proportion of the total pension liability was based on the ratio of the Administration's actual benefit payments for allocation to the aggregate total of benefit payments for allocation paid by all participating entities during the year ending on the measurement date. As of June 30, 2024, the Administration's proportion was 0.15469%, which resulted in a decrease of 0.00479% from its proportion as of June 30, 2023.

#### *Actuarial Methods and Assumptions*

The actuarial valuation used the following actuarial assumptions applied to all periods in the measurement period:

##### *Discount Rate*

The discount rate for June 30, 2023 (measurement date) was 3.65%. This represents the municipal bond return rate as chosen by the Commonwealth. The source is the Bond Buyer General Obligation (GO) 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

##### *Mortality*

The mortality tables used in the June 30, 2023 actuarial valuation were as follows:

- *Pre-retirement Mortality*

For general employees not covered under Act 127-1958, the PubG-2010 employee rates, adjusted by 100% for males and 110% for females, projected using MP-2021 on a generational basis. For members covered under Act 127-1958, the PubS-2010 employee rates for males and females, projected using MP-2021 on a generational basis.

**PUERTO RICO LAND ADMINISTRATION**  
*(A Component Unit of the Commonwealth of Puerto Rico)*

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**Fiscal Year Ended June 30, 2024**

---

As generational tables, they reflect mortality improvements both before and after the measurement date.

100% of deaths while in active service are assumed to be occupational for members covered under Act 127-1958.

- *Post-retirement Retiree Mortality*

The PubG-2010 healthy retiree rates, adjusted by 100% for males and 110% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date. This assumption is also used for beneficiaries prior to the member's death.

- *Post-retirement Disabled Mortality*

The PubG-2010 disabled retiree rates, adjusted by 80% for males and 100% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

- *Post-retirement Beneficiary Mortality*

Prior to the retiree's death, beneficiary mortality is assumed to be the same as the post-retirement retiree mortality. For periods after the retiree's death, the PubG-2010(B) contingent survivor rates, adjusted by 110% for males and 120% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

*Other assumptions as of June 30, 2023*

The actuarial valuation used the following actuarial methods and assumptions applied to all periods in the measurement:

Actuarial cost method:	Entry age normal
Inflation rate:	Not applicable
Salary increases:	No compensation increases are assumed effectively March 15, 2022.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**Fiscal Year Ended June 30, 2024**

*Sensitivity of the Administration's Proportionate Share of Total Pension Liability to Changes in the Discount Rate*

The following table presents the Administration's proportionate share of the total pension liability calculated using the current discount rate of 3.65%, as well as what the Administration's proportionate share of the total pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.65%) or one percentage point higher (4.65%) than the current rate:

Description	1% Decrease or 2.65%	Current Discount Rate or 3.65%	1% Increase or 4.65%
Total pension liability	\$ 35,822,961	\$ 32,129,490	\$ 29,046,507

For the year ended June 30, 2024, the Administration recognized pension recovery of approximately \$1.9 million. Deferred outflows and deferred inflows of resources from pension activities by source reported by the Administration in the statement of net position as of June 30, 2024, are as follows:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 22,390	\$ 200,384
Changes of assumptions	1,226,826	-
Changes in proportion	26,673	314,296
Benefits paid and accrued subsequent to measurement date	2,193,373	-
	<u>\$ 3,469,262</u>	<u>\$ 514,680</u>

The benefits paid and accrued subsequent to the measurement date and reported as deferred outflows of resources, are related to the PayGo System and are due to the Commonwealth of Puerto Rico. These benefits will be recognized as a reduction of the total pension liability after June 30, 2024.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**Fiscal Year Ended June 30, 2024**

---

Amounts reported as deferred outflows and deferred inflows of resources related to pensions as of June 30, 2024, will be recognized in pension expense in future years, as follows:

<u>Years ending June 30, (measurement date)</u>	<u>Amount</u>
2024	<u>\$ 761,209</u>

The previous amounts do not include the Administration’s specific deferred outflows and deferred inflows of resources related to changes in proportion. These amounts should be recognized (amortized) by the Administration over the average of the expected remaining service lives of all plan members, which is 1 year for 2024.

**17) Other Postemployment Benefit Plan (OPEB Plan)**

In addition to the pension benefits described in Note 16, the Administration participates in the OPEB Plan of the Commonwealth for Retired Participants of the Employee’s Retirement System. The OPEB is an unfunded defined benefit other postemployment healthcare benefit plan administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB Statement No. 75).

Under the guidance of GASB Statement No. 75, the Commonwealth and its component units are considered to be the one employer and are classified for financial reporting purposes as a single-employer defined benefit OPEB plan.

The OPEB plan covers a payment of up to \$100 per month to the eligible medical insurance plan selected by each member provided that the member retired prior to July 1, 2013 (Act No. 483, as amended by Act No. 3). The Plan is financed by the Commonwealth through legislative appropriations. There is no contribution requirement from the plan members during active employment. The retirees contribute the amount of the healthcare insurance premium not covered by the Commonwealth contribution. Plan members were eligible for benefits upon reaching the applicable pension benefits retirement age. Act No. 3 of 2013 eliminated this healthcare benefit to the Plan members that retired after June 30, 2013.

*OPEB Liability, OPEB Expense and Deferred Outflows of Resources*

As of June 30, 2024, the Administration reported a liability of approximately \$811 thousand for its proportionate share of the OPEB liability. The total OPEB liability as of June 30, 2024, was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023 (measurement date).

The actuarial valuation used the following actuarial assumptions applied to all periods in the measurement period.

**PUERTO RICO LAND ADMINISTRATION**

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**Fiscal Year Ended June 30, 2024**

---

As of June 30, 2024, the Administration's proportion was 0.12545%, which resulted in an increase of 0.000003% from its proportion as of June 30, 2023 (measurement date). The Administration recognized an OPEB benefit for approximately \$61 thousand, during the fiscal year ended June 30, 2024.

The deferred outflows of resources related to the OPEB plan results from the benefits paid subsequent to measurement date amounting to approximately \$68 thousand as of June 30, 2024, and will be recognized as a reduction of the total OPEB liability in the fiscal year ending June 30, 2024. Because all participants are inactive, there are no deferred outflows or inflows of resources as changes in actuarial assumptions, economic or demographic gains and losses, and changes in proportionate share are recognized immediately during the measurement year.

*Actuarial Assumptions and Methods*

The actuarial valuation used the following actuarial methods and assumptions applied to all periods in the measurement:

Valuation date:	July 1, 2022
Measurement date:	June 30, 2023
Actuarial cost method	Entry age normal
Medical trend rate:	Not applicable

*Discount rate* – The discount rate was 3.65%. This represents the municipal bond return rate as chosen by the Commonwealth. The source is the Bond Buyer General Obligation (GO) 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

*Mortality* – The mortality tables used for valuation were as follows:

- *Pre-retirement Mortality*

For general employees not covered under Act 127-1958, the PubG-2010 employee rates, adjusted by 100% for males and 110% for females, projected using MP-2021 on a generational basis. For members covered under Act 127-1958, the PubS-2010 employee rates for males and females, projected using MP-2021 on a generational basis. As generational tables, they reflect mortality improvements both before and after the measurement date.

100% of deaths while in active service are assumed to be occupational for members covered under Act 127-1958.

- *Post-retirement Mortality*

The PubG-2010 healthy retiree rates, adjusted by 100% for males and 110% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date. This assumption is also used for beneficiaries prior to the member's death.

- *Post-retirement Disabled Mortality*

The PubG-2010 disabled retiree rates, adjusted by 80% for males and 100% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

- *Post-retirement Beneficiary Mortality*

Prior to the retiree's death, beneficiary mortality is assumed to be the same as the post-retirement retiree mortality. For periods after the retiree's death, the PubG-2010(B) contingent survivor rates, adjusted by 110% for males and 120% for females, projected using MP-2021 on a generational basis. As a generational table, it reflects mortality improvements both before and after the measurement date.

*Sensitivity of the Administration's Proportionate Share of Total OPEB*

The following presents the total OPEB liability of the Administration as of June 30, 2024 calculated using the discount rate of 3.65%, as well as the Administration's total OPEB liability if it were calculated using the discount rate of 1 – percentage point lower (2.65%) or 1 – percentage point higher (4.65%) than the current rate:

Description	1% Decrease or 2.65%	Current Discount Rate of 3.65%	1% Increase or 4.65%
Total OPEB liability	\$ 880,639	\$ 811,087	\$ 751,082

**18) Federal grants revenues**

During fiscal year 2019, Management re-evaluated the extent of the hurricane-related damages to the Administration's properties held-for-sale and estimated its losses. Accordingly, in December 2019, the Administration presented a claim in respect to hurricane damages to the Federal Emergency Management Administration (FEMA). On January 11, 2021, the Administration received notification of approval of funds for the total amount of approximately \$10.2 million, of which as of June 30, 2024, the Administration received \$46 thousand. During the year ended June 30, 2024, the Administration had expenditures of approximately \$639 thousand related to federal funds. Revenues from federal grants were recorded as intergovernmental revenues in the accompanying statement of revenues, expenses, and changes in fund net position.

## **NOTES TO BASIC FINANCIAL STATEMENTS**

### **Fiscal Year Ended June 30, 2024**

---

As of June 30, 2024, the Administration has recognized unearned revenues for unexpended federal grants for approximately \$111 thousand, which were also included as part of the restricted cash in the accompanying statement of net position received from federal funded programs are subject to financial and compliance audits in accordance with the provisions of Title 2 of the U.S. Code of Federal Regulation, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (the Uniform Guidance) or to compliance audits by the corresponding federal agencies and pass-through entities, as applicable. The Uniform Guidance requires compliance audits for entities expending federal financial assistance for or in excess of \$750 thousand in the aggregate in a single year. Related compliance reports are required to be submitted to the corresponding federal agencies. Since the Administration does not expend federal financial assistance in excess of \$750 thousand, it is not subject to compliance audits under the Uniform Guidance for the fiscal year ended on June 30, 2024.

Federal agencies have the authority to recoup, as well as to limit, suspend, or terminate the federal financial assistance programs. If any unallowed costs are detected as a result of such compliance audits, the Administration may be required to reimburse such amounts to the corresponding federal agencies from its own non-federal resources.

#### **19) Contributions from the Commonwealth of Puerto Rico**

Governmental contributions, in intergovernmental income in the statement of revenues, expenses and changes in funds are usually recognized net position for the year ended June 30, 2024. During the year ended June 30, 2024, the Administration received conditional contributions from the Commonwealth of Puerto Rico amounting to approximately \$111 thousand for rental properties improvements.

As of June 30, 2024, the \$111 thousand has not been used yet for the designated purpose and thus, are included as part of restricted cash and unearned revenues in the accompanying statement of net position for the year then ended.

#### **20) Commitments and claims**

- A. Guarantees – The Administration has entered into a purchase option agreement with the Roosevelt Roads Local Development Authority (the “Authority”). Under the terms of this purchase agreement, the Administration will acquire the real estate properties located at Naval Station Roosevelt Roads. The agreement established an estimated price of \$2.5 million for such properties. As part of the purchase option, the Administration will pay a deposit of \$600 thousand.

The purchase option agreement expired on June 30, 2016 and the Authority will have to reimburse the deposit amount to the Administration. The Authority presented a payment plan for the reimbursement of the deposit amount due to their current economic conditions and cash flows difficulties, which were approved on May 4, 2017 by both parties. As of June 30, 2024, the balance due from the Authority amounted to approximately \$379 thousand, which was recorded as part of the notes, interest, and other receivables balance in the accompanying statement of net position.

- B. Claim for Earthquakes – On January 7, 2020, Puerto Rico experienced a 6.4 magnitude earthquake that shook its southern coast, which was one of the most damaging quakes that the island has seen. Puerto Rico's governor declared a state of emergency and requested direct federal assistance and emergency protective measures. The Administration identified one property with structural damages related to the events of earthquakes, this property is referred as "Antiguo Casino de Ponce", which is located in the municipality of Ponce, and it is actually under a long-term contract with the same municipality to operate the casino. As of June 30, 2024, the Administration is in the process of signing a Memorandum of Understanding (MOU), in order to FEMA to consider the municipality as a subrecipient and obtain federal funds to repair damages of the property.

## 21) Contingencies

### Legal Claims

The Administration is a party in legal claims arising from land condemnations principally on behalf of other government entities. The management of the Administration, after consulting with legal counsels, is of the opinion that any liabilities arising from claims of land condemnations on behalf of others, which for the most part represent additional costs of land acquired and not yet sold, will be assumed by the governmental instrumentality that will ultimately acquire the land.

The Administration was notified in 1992 by the Environmental Protection Agency (EPA) that it was a Potential Responsible Party (PRP) under the provisions of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The EPA also named other private and governmental sector PRPs. The public sector PRPs are the Municipality of Juncos and the Puerto Rico Housing Administration.

EPA alleged that the private PRPs deposited and/or arranged for disposal of hazardous substances at the Juncos Landfill. EPA also alleged that the governmental PRPs were either aware of the land and/or operations, and therefore, were responsible for part of the liability associated to the disposal of hazardous substances at the site.

According to the case file, the governmental PRPs must enter into an interagency agreement to allocate to each governmental PRP responsibility and duties, which currently include monthly maintenance activities. It was preliminarily agreed that the governmental PRPs would pay \$2,000 monthly for one year to the Municipality of Juncos for the acquisition of equipment to be used in maintenance activities.

The Administration argues that its share of responsibility is 10% of said amount. It should be noted, however, that the maintenance activities would, in effect, for at least 25 years. The governmental PRPs have been negotiating each one's share of liability in order to contribute accordingly. As of the date of these financial statements, the governmental PRPs have not reached an agreement.

# **PUERTO RICO LAND ADMINISTRATION**

*(A Component Unit of the Commonwealth of Puerto Rico)*

## **NOTES TO BASIC FINANCIAL STATEMENTS**

### **Fiscal Year Ended June 30, 2024**

---

In addition to the foregoing, the EPA was claiming approximately \$646 thousand from the governmental PRPs as alleged costs incurred in the relocation of nearby residents of the condemned site. The governmental PRPs and the EPA reached an agreement on June 22, 2010 to settle the EPA's claim for approximately \$368 thousand. While the governmental PRPs reached jointly that agreement with the EPA, they were supposed to reach an internal agreement to allocate each other's liability in order to pay its share of the agreed amount to the EPA. The governmental PRPs were not able to reach an internal agreement on to allocate each one's liability.

The Administration decided it would pay one third (\$122,584) of the amount owed to the EPA as its share in order to bring the case to an end and to avoid potential future litigation costs and additional efforts. Since the agreement with the EPA was made jointly by the governmental PRPs, in the event that there is an outstanding balance not satisfied by any of the other governmental PRPs, the EPA may still come after the Administration for collection of such balance. The Administration is also a party to other claims arising in the ordinary course of business. Management, based on consultation with its legal counsel, is of the opinion that the ultimate liability, if any, resulting from these pending proceedings and legal actions in the aggregate will not have a material effect on the Administration's financial statements.

However, management is of the opinion that they will reach settlements in certain cases. A liability to cover claims and other contingencies of approximately \$1.0 million has been reflected as part of the accounts payable and accrued liabilities balance in the accompanying statement of net position.

## **22) Subsequent Events**

The Administration has evaluated subsequent events through October 21, 2025, the date which the financial statements were available to be issued and determined that there are no additional events besides the one disclosed below that require adjustment or disclosure in the financial statements. The Administration entered into rental lease agreements; these lease agreements have a term of five (5) years commencing after year end. Monthly lease payments amount from \$3 thousand to \$6 thousand. Lease receivable and deferred inflows of resources, at the inception of the lease, is expected to be approximately \$493 thousand from these lease agreements.

**Changes and Assumptions**

On August 23, 2017, the Governor of the Commonwealth signed into law the Act to Guarantee the Payment to Our Pensioners and Establish New Plan Defined Contributions for Public Servants (Act No. 106-2017). Act No. 106-2017 established the pay-as-you-go mechanism effective July 1, 2017 for all the Commonwealth's pension plans. Accordingly, no assets are accumulated in a qualifying trust.

Changes in actuarial assumptions

There was a change in the actuarial assumptions or inputs in the determination of the total pension liability as a result of the decrease in the discount rate as follows:

In the revised June 30, 2023 actuarial valuation, there was an increase relating to the discount rate from 3.54% in 2022 to 3.65% in 2023.

In the revised June 30, 2022 actuarial valuation, there was an increase relating to the discount rate from 2.16% in 2021 to 3.54% in 2022.

In the revised June 30, 2021 actuarial valuation, there was a decrease relating to the discount rate from 2.21% in 2020 to 2.16% in 2021.

In the revised June 30, 2019 actuarial valuation, there was a decrease relating to the discount rate from 3.87% in 2018 to 3.50% in 2019.

In the revised June 30, 2018 actuarial valuation, there was an increase relating to the discount rate from 3.58% in 2017 to 3.87% in 2018.

In the revised June 30, 2017 actuarial valuation, there was an increase relating to the discount rate from 2.85% in 2016 to 3.58% in 2017.

Also, the postretirement and preretirement mortality assumptions were revised on June 30, 2021 valuation, as follows:

The postretirement mortality assumptions were revised based on an experience study covering the period from July 1, 2013 through June 30, 2018. The base mortality rates reflect the Society of Actuaries Pub-2010 mortality tables, which were published in January 2019 and are based on public experience. For healthy retirees and beneficiaries prior the member's death, the postretirement mortality rates were revised to 100% and 110% of the Pub-2010 general healthy retiree mortality table for males and females, respectively. For disabled retirees, the postretirement mortality base rates were revised to 80% and 100% of the Pub-2010 general disable retiree mortality table for males and females, respectively. For beneficiaries after the retirees' death, the postretirement mortality base rates were revised to 110% and 120% of the Pub-2010 general below median contingent survivor mortality table for males and females, respectively.
